July 25, 2017

HAND DELIVERED
Eric Goldberg, Chairman
Zoning Board of Appeals
Town of Wayland
41 Cochituate Road
Wayland MA 01778

RE: Comprehensive Permit Application
Properties located at 113, 115, 117 & 119 Boston Post Road, Wayland, Massachusetts
Assessor's Map 30 Parcel 71 and Map 30 Parcel 70.

Dear Chairman Goldberg:

This document comprises an application pursuant to G. L. c. 40B, §§ 20-23 (the "Act"), and the regulations promulgated thereunder with regard to a Comprehensive Permit to authorize the construction of sixty (60) dwelling units in one structure on land comprising approximately 6.49 acres located at 113, 115, 117 and 119 Boston Post Road, Wayland, Massachusetts which is located in a Single Residence 40,000 s.f. 180' frontage district (the "Property" or the "Site"). The Application for Zoning Board of Appeals Hearing is attached hereto in "Exhibit 1".

1.0 Applicant

This Application is filed by Eden Management Inc. (the "Applicant"), a Massachusetts corporation, with a principal address of 80 Hope Avenue Suite 512 Waltham MA 02453. A copy of the Applicant's Certificate of Organization as filed with the Massachusetts Secretary of State's Office and is attached hereto in "Exhibit 2".

The Applicant and related principals have been material in the development of several real estate developments. A list of past projects are attached hereto in "Exhibit 3".

The Applicant respectfully requests that all notices from the Board in connection with this Application be sent to this writer and Mark Bobrowksi and Paul Haverty, 9 Damonmill Sq., Concord, MA 01742, or electronically to mark@bbhlaw.com.

2.0 Project Subsidy

The Applicant has received a Project Eligibility Letter from the Department of Housing and Community Development ("DHCD") pursuant to the Housing Stabilization Fund ("HSF") Program. A copy of the Project Eligibility Letter is attached hereto in "Exhibit 4". The Project Eligibility Letter issued by DHCD satisfies the jurisdictional subsidy requirements established under the Act and the regulations promulgated thereunder.

The Project Eligibility Letter issued by DHCD contains the findings required by 760 CMR 56.04(4), including the finding that the Applicant controls the Site pursuant to 760 CMR 56.04(4)(g). Pursuant to 760 CMR 56.04(6), the determinations made by the Subsidizing Agency (in this instance DHCD) are conclusive, and any challenge to such determination may be made "solely upon the grounds that there has been a substantial change affecting the project eligibility requirements set forth at 760 CMR 56.04(1)."

The Applicant has notified the Subsidizing Agency of the submittal of this application. A copy of the notice to the DHCD is attached hereto in "Exhibit 5".

3.0 Site Control

The Applicant controls the Property within the meaning of the Act. The Property is controlled by the Applicant and the Developer. A copy of the Purchase and Sale Agreement are attached hereto in "Exhibit 6".

4.0 The Property

The property consists of 2 parcels. The parcels are identified as 113 and 115 Boston Post Road. The Property is illustrated on a set of plans by Beals & Thomas Inc. (the "Site Development Plans"), the

plans are attached hereto in "Exhibit 7". Such plans fulfill the requirements of 760 CMR 56.05(2)(a), preliminary site development plans. Additionally, context photographs of the surrounding area are attached hereto in "Exhibit 8". Such material, along with the existing conditions narrative contained herein, fulfills the requirement for an existing conditions summary contained in 760 CMR 56.05(2)(b).

The entirety of the Property is located along Boston Post Road (State Road 20). This proximity to Route 20 and the Pine Brook Road will avail project resident's significant access to existing vehicular transportation roads east, west and south. Additionally the project's location proximate to the Vokes Playhouse (cultural), multiple houses of worship and restaurants (Grill 131, Coach Grill) will help stimulate economic development and other mixed-use activities.

The retail portion of this site has historically been a garden center use dating back more than 100 years. The house at 113 Boston Post Road is of comparable age. Most recently the garden center has been known as the Mahoney's Garden Center. The Mahoney family is in the process of vacating the premises in favor of their Concord location. The house and garden center will be demolished as part of Cascade.

The character of the neighborhood is a well-travelled state road corridor populated with a mix of uses. These uses include older, midcentury and newer homes and multifamily properties; newer religious facilities, Independent and Assisted Living Facilities, restaurants and other cultural, retail and service uses. The predominant feature of the immediate neighborhood is State Route 20 / Boston Post Road which serves approximately 19,000 adt (average daily (vehicle) trips).

5.0 Project Description

Design features, floor plans and exterior elevations for the proposed structure is shown on a set of plans, prepared by Finegold Alexander Architects and attached hereto in "Exhibit 7" (the "Architectural Plans") (collectively, the Site Development Plans and the Architectural Plans are referred to as the "Project Plans" all which are attached hereto in "Exhibit 7"). The Architectural Plans submitted herewith fulfill the requirement for preliminary, scaled architectural plans as reflected in 760 CMR 56.05(2)(c). The Project plans are filed with this application and are made a part hereof by reference. Under the Act,

plans filed with a Comprehensive Permit application may be preliminary plans, and the Applicant reserves the right to revise the Project Plans prior to final approval of the Project.

For its own purposes the Town of Wayland has proposed a 4 story multifamily use on Boston Post Road. The Town's proposed project is called Rivers Edge. The metrics of Rivers Edge are 4 stories on a promontory with a density of approximately 22 units to the acre for 8 acres. Rivers Edge was approved by way of Town Meeting. In comparison Cascade's three story building design is contextually appropriate when compared to adjacent homes and buildings, and within height stipulations under Wayland's Zoning Bylaw 198-701.1.1 for parcels greater than 5 acres. Building envelope material choices are compatible with the adjacent residential neighborhood.

Although Cascade is denser than some of the surrounding neighborhood, the design of the building will incorporate elements consistent with the nature of the neighborhood, in order to mitigate the visual impact of the building.

The Cascade building is a series of three-story elements compromising a single structure. The single structure will constitute 60 dwelling units. Of the 60 dwelling units, 15 will be affordable to households under 80% of the area median income (AMI) and 45 will be available to households at market rates. As for unit distribution; six units will be studios, twenty four units will be one-bedroom, twenty four units will be two-bedroom and six units will be three bedroom.

The project will is designed to include significant landscaping. A tabulation of proposed buildings type, size and ground coverage is found in "Exhibit 7". The attached tabulation satisfies the requirements of 760 CMR 56.05(2)(d).

6.0 Existing Site and Surrounding Site Area Conditions (See 760 CMR 56.05(2)(b))

The subject property is located on the south side of Boston Post Road with approximately 750 feet of frontage. The property is located within the "Residence Zone 40,000 – 180' Front" as depicted on the Town of Wayland Zoning Map. The properties consists of a total of 6.49± acres (282,704 ± square feet) of which less than an acre is wetlands. The upland areas are located towards the front and rear portions of the site while the wetlands diagonally traverses the center. The wetlands are associated with

the Pine Brook and traverses from east to west before gathering into the river channel. While the Pine Brook qualifies as a river under the state statute, no portion of the property is located within the Natural Heritage and Endangered Species Program (NHESP) Priority Habitat and Estimated Habitat.

The site is currently occupied by the Mahoney Garden Center. It is anticipated the site will be vacated during this retail season. The Garden Center has a building footprint of approximately 20,000 square feet and occupies much of the site. In addition to the Garden Center there are several parking areas and mobilization areas spread throughout the site. In total the existing use qualifies as 3.6 acres or 55% the site with disturbances and improvements.

Significant Soil testing as witnessed by the Wayland's Board of Health and DEP North East Region has been performed at the site. See Exhibit 9 for the soil log. In summary there are more than sufficient soils present and satisfactory to support the necessary subsurface sewage disposal and storm water infiltration requirements of the program.

A key attributes of this proposed site is the reuse and improvement of the existing conditions. These improvements are expressed by improved storm water polishing, greater and more controlled infiltration, diminished footprint proximate to the river, enhanced access to the upland areas proximate to the site.

8.0 Proposed Landscaping/Buffers

The garden center has 3 curb cuts on Boston Post Road. This leads to significant turning movement conflicts and potentially unsafe vehicular operation. Cascade will have a single primary entrance to help improve safety and turning efficiency for residents, guests and service providers.

9.0 Project Impacts

A. Municipal Services

1. Water Supply

The Project will be serviced by Wayland's public water supply. Presently the Garden Center's agricultural uses are served by on site wells which are drawing from local groundwater. These agricultural wells are not monitored under the Town's Water Management Act (WMA) Permit and could have a

significant negative impact on local groundwater. The 89 bedrooms of Cascade are estimated to require 4,450 gallons per day. This water consumption is based upon DEP Empirical values and not Title V. The combination of removing the irrigation wells, improving the site storm water characteristics and the new construction best management practices will significantly inure to Wayland's Water Management Act Permit.

2. Wastewater

Cascade will design and build a new wastewater system. Depending upon the particulars we will build either an IA septic system or a Private Waste Water Treatment Facility. In either case this will be a significant improvement for effluent treatment when compared to existing or adjacent conditions. We anticipate Cascade will require treatment of approximately 4,450 gallons per day. DEP Empirical value.

3. Storm water

Under the post development conditions, storm water runoff for all exterior features (building, parking, walkways) will flow into a storm water treatment unit and then into a sub-surface infiltration system. This will polish and attenuate all storm water flows. All of the storm water for the two year and 25-year 24-hour storms will be totally infiltrated. For the 100-year 24-hour storm, some discharge will occur but as demonstrated by the storm water study flows will be substantially less than that which occurs for the existing condition. Storm water quality will also be addressed via the proposed storm water quality unit.

Peak rates of runoff were calculated using the TR-20 methodology developed by the NRCS. There will be an increase in runoff rates due to the additional impervious area proposed on the site. This increase is attenuated by the proposed subsurface infiltration system by providing infiltration, storage volume and discharge controls. These measures will both detain and infiltrate runoff, mitigating increased rates and volumes of runoff for the 2, 10, 25 and 100 year storms events to the wetlands. The storm water management system for the Project is designed in conformance with the Massachusetts Department of Environmental Protection's Storm water Management Standards. No adverse impact on

the municipal storm water drainage system will be generated by the Project, as the Project will not increase the volume of storm water discharging to wetlands.

Public Safety

Public safety is a function of adequate access to and from the Site. Public safety vehicle access to and from the site will be from Boston Post Road, a public way. Police and Fire apparatus will have sufficient access to the structure. The Project will have no adverse impact upon public safety.

4. Utilities

Utilities, including natural gas, electric and cable television, will be extended onto the Site from Boston Post Road, as shown on the Site Development Plans. No adverse impacts relative to public services or utilities to abutting properties or to the Town is anticipated.

B. Construction Impacts

Anticipated impacts of the Project associated with the construction process include erosion and sedimentation, noise, dust and debris control. Although these impacts will be temporary in nature, mitigation controls will be in place. Such controls include the following:

i. Construction sequencing, best management practices for erosion control, equipment and vehicle management, material storage and use, waste disposal and spill prevention and response.

ii. A daily inspection of the site conditions, as needed, to control dust during construction and to provide dust management through misting or sprinkling, as needed.

C. Historical and Archeological Impacts

A search of the Commonwealth of Massachusetts's MACRIS (Massachusetts Cultural Resource Information System) web site for this site or its elements and a similar search of the Town of Wayland's "Town's Historic Homes and Buildings Inventory" finds no elements that qualify as historical relevant or substantial.

D. Environmental Impacts

The Applicant does not expect the Project to result in any adverse environmental impacts to the Site. As noted above, the Applicant will take appropriate mitigation measures to address potential impacts, as needed.

E. Traffic Impacts

As discussed in the detailed traffic impact assessment prepared for this application, the proposed development is anticipated to generate minimal traffic impacts to the surrounding roadway system. The Property is located on Route 20 / Boston Post Road a major roadway in the Town and the region. The traffic generated by the newly constructed dwelling units will have nominal impact on Boston Post Road. This is especially pertinent in light of those periods in which the garden center generated volume during seasonal and weekday highs. See Vehicle Trip Generation Estimates attached hereto in "Exhibit 10".

10.0 Request for Zoning Waivers

The subject property is zoned "Single Family 40,000 180'frontage". Certain elements of the proposed development do not comply with the current underlying zoning. Consequently, an exception of use is required to enable multi-family residential at the proposed density to be constructed. Other exceptions to the Town of Wayland's Zoning Bylaws and other local land use regulations are specifically detailed in this application. If any specific exceptions have not been listed in this application, the applicant, upon notification of such an oversight, shall promptly amend the list of exceptions included herein. The Waiver Request List is attached hereto in "Exhibit 11".

11.0 G. L. c. 40B and Local Housing Needs

The Act, provides in relevant part that all communities are required to have a minimum of ten percent (10%) of their housing stock dedicated to low and moderate income housing. See G. L. c. 40B, § 20, and 760 CMR 56.03(3)(a). Based upon most recent applicable data available, the stock of housing utilized in Wayland for low to moderate income purposes is 4.0% which is below the 10% requirement. See DHCD Subsidized Housing Inventory as of December 5, 2014, attached hereto in "Exhibit 12". With the Town being below the required 10% threshold, there exists a legal presumption that there is a regional

housing need which outweighs local concerns. In such case, the municipality must approve the Comprehensive Permit or approve it with conditions.

The Applicant proposes and agrees that fifteen (15) of the total number of units in the Project will be dedicated as affordable units to persons earning not more than eighty percent (80%) of the area median income.

The project will also provide much needed fully-wheel chair accessible and adaptable units to the Wayland housing inventory.

The affordable units will be made available on a lottery basis, on terms acceptable to the Subsidizing Agency, in accordance with applicable fair housing law.

12.0 Filing with Other Boards

The Applicant will provide an application to the Conservation Commission and the Board of Health.

13.0 Additional Information

The Applicant has provided additional information / documents to this Application as described in the Table of Contents attached hereto.

The Applicant reserves the right to provide, and anticipates providing, additional information to the Board of Appeals during the course of the hearing process.

14.0 Phasing

The Applicant does not currently plan to phase the Project. The Applicant reserves the right to propose phasing, if necessary.

15.0 Finding of Fact

The applicant requests that the Board of Appeals make the following findings of fact in connection with the action of the Board on this application:

1. Eden Management Inc., the Applicant, shall form a limited profit organization within the meaning of General Laws, Chapter 40B, which shall be eligible to receive a subsidy under a state or federal affordable housing program after a Comprehensive Permit has been granted.

2. The Applicant has shown evidence of its site control to qualify it as a recipient of a Comprehensive Permit for this site.

3. DHCD, as the Program Administrator of the New England Fund Program, will be the subsidizing agency within the meaning of the regulations of 40B (760 CMR 56.04) and within the meaning of the procedural regulations of the Housing Appeals Committee (760 CMR 56.07).

4. The number of low or moderate income housing units in the town of Wayland constitutes less than ten percent (10%) as reported in the latest decennial census of the town and reported by the Department of Housing & Community Development.

5. The development as proposed in the application is consistent with local needs within the meaning of General Laws, Chapter 40B, Section 20.

The Applicant respectfully requests the Board of Appeals after complying with the procedural requirements as provided by law, to issue to the applicant a Comprehensive Permit for the development.

16.0 Summary

The within Application proposes an attractive, well-designed affordable housing development that will address a long-standing and serious shortage of affordable and elderly housing. The Site design and existing conditions afford ample area to accommodate the proposed development. Moreover, the Project has been designed to minimize and mitigate potential impacts to municipal systems and services.

The Applicant respectfully submits that the Project will meet a severe regional and local need for affordable rental housing while also addressing the health, safety, and environmental concerns of Wayland residents.

Respectfully submitted,

Eden Management Inc.

COMMUNITY ENGAGEMENT

President, Board of Directors, Metro West Collaborative Development (MWCD), Newton, MA

MWCD (www.metrowestcd.org) is a CDC focused on creating and preserving affordable housing and supporting economic development for residents of Boston's western suburbs. As the newly elected President of the Board of Directors, currently leading the ad-hoc committee engaged in due diligence for a potential merger with a local CDC. The merger, if finalized, has the potential to not only double MWCD's portfolio but also triple the value of real estate assets. Board member responsibilities include:

- Development project approvals
- Annual organizational planning
- Annual operating budget preparation (approx. $545,000 for 2016)
- Networking and fundraising

Chair, Board of Trustees, Repton Place Condominium, Watertown, MA

The Board of Trustees manages an $840,000 annual operating budget and an approx. $250,000 reserve fund for the 179-unit condominium property completed in 2007. Led the right-of-way easement negotiations when the previously undeveloped Phase 2 was formally split from Phase 1 (Repton Place) and sold to a separate entity to develop rental apartments. The agreement formalized the rules and regulations related to the shared amenity spaces housed within Phase 2. Important responsibilities include:

- Property management contracts
- Annual budget preparation
- Capital projects
- Reserve fund allocations
- Vendor negotiations and selections

Lead Designer -UTEC Lowell Plaza, with Community Outreach Group for Landscape Design (COGDesign), Cambridge, MA (2015)

The site design and planning services are provided under COGDesign. UTEC, based in Lowell, helps proven at-risk youth to trade violence and poverty for social and economic success. The design for the approx. 5,500 SF space envisages a multi-purpose "frontyard," which will house UTEC's activities as well as those of a UTEC managed Early Education Center.

Member, Zoning Board of Appeals (ZBA), Town of Watertown, MA (2009-2014)

As a ZBA member, was involved in decisions regarding special permits and variances. One of two design professionals in a panel consisting of 2 designers, one municipal planner and 2 lawyers. Part of some of the early permitting related to the ongoing strong development cycle in Watertown.

MassHousing ID No. 851

Dear Mr. Zieff:

This letter is in response to your application as "Applicant" for a determination of Project Eligibility (Site Approval) pursuant to Massachusetts General Laws Chapter 40B ("Chapter 40B"), 760 CMR 56.00 (the "Regulations") and the Comprehensive Permit Guidelines issued by the Department of Housing and Community Development ("DHCD") (the "Guidelines" and, collectively with Chapter 40B and the Regulations, the "Comprehensive Permit Rules"), under the New England Fund ("NEF") Program ("the Program") of the Federal Home Loan Bank of Boston ("FHLBB").

Eden Management Inc. has submitted an application with MassHousing pursuant to Chapter 40B. You have proposed to build 60 units of rental housing (the "Project") on approximately 6.49 acres of land located on Boston Post Road (the "Site") in Wayland (the "Municipality"). The property is currently occupied by Mahoney's Garden Center, and includes several buildings and structures and a gravel parking area. In accordance with the Comprehensive Permit Rules, this letter is intended to be a written determination of Project Eligibility ("Site Approval") by MassHousing acting as Subsidizing Agency under the Guidelines, including Part V thereof, "Housing Programs In Which Funding Is Provided By Other Than A State Agency."

MassHousing has performed an on-site inspection of the Site, which local boards and officials were invited to attend, and has reviewed the pertinent information for the Project submitted by the Applicant, the Municipality and others in accordance with the Comprehensive Permit Rules.

Municipal Comments
The Municipality was given a thirty (30) day period, in which to review the Site Approval application and submit comments to MassHousing. Cherry Karlson, Chairman of the Wayland Board of Selectmen, submitted a letter (received by MassHousing on July 26, 2016) summarizing comments from municipal officials, staff, and members of the public. Also provided with the Selectmen's letter were copies of a memo prepared by the Town Planner

summarizing staff concerns with the Project, and a letter from the Pine Brook Neighborhood Association outlining abutter issues.

Municipal comments identified the following specific concerns:

- The Town expressed concern that the project did not conform to local planning goals as articulated in the Town's zoning by-law and draft Housing Production Plan. Specifically, the Town described ongoing efforts associated with River's Edge (a Town-sponsored, 188-unit, rental housing development proposed for an 8.4-acre parcel of town-owned land at 489-490 Boston Post Road). They expressed concern that the Brookside project, if allowed to proceed, would threaten the feasibility of the Town-sponsored project by drawing away potential residents.

- Municipal officials expressed concern with the height, mass and density of the proposed multi-family building, noting that it was out of character with the surrounding neighborhood. This concern was also noted in the letter prepared by the Pine Brook Neighborhood Association.

- The Municipality expressed concern that the Town's fire-safety equipment would not have the capacity to handle a multi-family building of this size, putting future residents and abutting properties at risk.

- Wayland public safety officials expressed concern that the Project would exacerbate risks to pedestrian safety resulting from the combined effect of the lack of sidewalks and high traffic volumes along Boston Post Road.

- The Wayland Historical Commission noted the presence of a potentially sensitive and significant archeological site near Pine Brook. They recommended an archeological survey of the Site before the site is developed.

- The Town identified concerns about the Project's potential environmental impacts. Specifically, in light of existing soil conditions in this area, staff from the Wayland Board of Health questioned the feasibility of the proposed septic system and expressed concern about potential contamination of Pine Brook, area wetlands, and local groundwater supplies. Similarly, the Conservation Administrator urged the use of local standards in the design of drainage and stormwater management facilities, citing the Site's proximity to Pine Brook.

- The Wayland Historical Commission submitted a letter, dated September 1, 2016, suggesting that the Site contain potentially contain significant archeological resources, and recommending that an appropriate archeological survey be performed to ensure a finding of "no impact" before development plans could proceed.

MassHousing also received a letter, dated August 18, 2016, from State Representative Carmine L. Gentile, who represents the 13th Middlesex District. Representative Gentile's letter urged MassHousing to deny the application for Brookside, reiterating Municipal concerns relative to the building's size, and non-compliance with local land use regulations. Representative Gentile emphasized recent Town actions to address local housing need, and, in particular, the ongoing efforts associated with River's Edge (a Town-sponsored, mixed income rental development) arguing that such efforts should justify the Town's insistence on compliance with the local Zoning By-law.

MassHousing Determination

MassHousing staff has determined that the Project appears generally eligible under the requirements of the Program, subject to final review of eligibility and to Final Approval. As a result of our review, we have made the findings as required pursuant to 760 CMR 56.04(1) and (4). Each such finding, with supporting reasoning, is set forth in further detail on Attachment 1 hereto.

Based on MassHousing's site and design review, and in light of feedback received from the Municipality, the following issues should be addressed prior to the submittal of your application for a Comprehensive Permit from the Wayland Zoning Board of Appeals (ZBA), and you should be prepared to explore them more fully in the local hearing process:

1. Development of this Site will require compliance with all state and federal environmental laws, regulations and standards applicable to existing conditions and to the proposed use related to building construction, stormwater management, and wastewater collection and treatment. The Applicant should expect that the Municipality will require evidence of such compliance prior to the issuance of a building permit for the Project.

2. The Applicant should be prepared to address Municipal concerns that the Project is in conflict with Wayland's planning and affordable housing goals. Additionally the Applicant should be prepared to respond to questions relative to market demand for multi-family housing in Wayland and the surrounding area, taking into account existing and proposed development, and, in particular the proposed affordable housing proposed for River's Edge.

3. The Applicant should be prepared to address Municipal concerns relative to the massing, height and density of the proposed building, and to work with the Town to mitigate or ameliorate potentially negative visual impacts to abutting properties and from Route 20. Should the Applicant apply for a Comprehensive Permit, they should provide detailed building elevations, sections and a landscape plan to facilitate this discussion.

4. The Applicant should be prepared to provide sufficient data to assess potential traffic impacts on area roadways and intersections, and to discuss appropriate mitigation. In particular, the Applicant should be prepared to address Municipal concerns relative to Project impacts on traffic volumes on Boston Post Road, and associated risks to pedestrian safety.

5. The Applicant should address Municipal concerns relative to the feasibility of the proposed septic system and its potential impacts to the groundwater supply, and to identify appropriate mitigation.

6. The Applicant should be prepared to describe the project's potential environmental impacts on Pine Brook, and work with Town officials to identify necessary mitigation.

7. The Applicant should be prepared to respond to the concerns of the Wayland Historical Commission relative to the possible presence of archeologically significant artifacts on the Site.

8. The Municipality asked that the Applicant provide evidence of the land's value. In accordance with 40B Regulations and as a part of the Site Approval process a third-party consultant was hired by MassHousing, and has completed an appraisal of the property. A copy of this appraisal was provided to the Wayland Town Planner via email on August 15, 2016.

9. In light of the number of two and three bedroom units, the site plan should include dedicated play space for young children. The Applicant should also provide information relative to snow storage, mail delivery, and trash pick-up.

This Site Approval is expressly limited to the development of no more than 60 rental units under the terms of the Program, of which not less than 25% (15) of such units shall be restricted as affordable for low or moderate income persons or families as required under the terms of the Guidelines. It is not a commitment or guarantee of NEF financing and does not constitute a site plan or building design approval. Should you consider, prior to obtaining a comprehensive permit, the use of any other housing subsidy program, the construction of additional units or a reduction in the size of the Site, you may be required to submit a new Site Approval application for review by MassHousing. Should you consider a change in tenure type or a change in building type or height, you may be required to submit a new site approval application for review by MassHousing.

For guidance on the comprehensive permit review process, you are advised to consult the Guidelines. Further, we urge you to review carefully with legal counsel the M.G.L. c.40B Comprehensive Permit Regulations at 760 CMR 56.00.

This approval will be effective for a period of two years from the date of this letter. Should the Applicant not apply for a comprehensive permit within this period this letter shall be considered to be expired and no longer in effect unless MassHousing extends the effective period of this letter in writing. In addition, the Applicant is required to notify MassHousing of the following: (1) the Applicant applies to the local ZBA for a Comprehensive Permit, (2) the ZBA issues a decision and (3) any appeals are filed.

Should a comprehensive permit be issued, please note that prior to (i) commencement of construction of the Project or (ii) issuance of a building permit, the Applicant is required to submit to MassHousing a request for Final Approval of the Project (as it may have been amended) in accordance with the Comprehensive Permit Rules (see especially 760 CMR 56.04(07) and the Guidelines including, without limitation, Part III thereof concerning Affirmative Fair Housing Marketing and Resident Selection). Final Approval will not be issued unless MassHousing is able to make the same findings at the time of issuing Final Approval as required at Site Approval.

Please note that MassHousing may not issue Final Approval if the Comprehensive Permit contains any conditions that are inconsistent with the regulatory requirements of the New England Fund Program of the FHLBB, for which MassHousing serves as Subsidizing Agency, as reflected in the applicable regulatory documents. In the interest of providing for an efficient review process and in order to avoid the potential lapse of certain appeal rights, the Applicant may wish to submit a "final draft" of the Comprehensive Permit to MassHousing for review. Applicants who avail themselves of this opportunity may avoid significant procedural delays that can result from the need to seek modification of the Comprehensive Permit after its initial issuance.

If you have any questions concerning this letter, please contact Katy Lacy at (617) 854-1098

Sincerely,

Timothy C. Sullivan
Executive Director

Attachment 1

760 CMR 56.04 Project Eligibility: Other Responsibilities of Subsidizing Agency
Section (4) Findings and Determinations

Brookside, Wayland, MA MH # 851

MassHousing hereby makes the following findings, based upon its review of the application, and taking into account information received during the site visit and from written comments:

(a) that the proposed Project appears generally eligible under the requirements of the housing subsidy program, subject to final approval under 760 CMR 56.04(7);

The Project is eligible under the NEF housing subsidy program and at least 25% of the units will be available to households earning at or below 80% of the Area Median Income (AMI), adjusted for household size, as published by the U.S. Department of Housing and Urban Development ("HUD"). The most recent HUD income limits indicate that 80% of the current median income for a four-person household in Wayland is $73,050

Proposed affordable rent levels of $1,094 for a studio apartment, $1,172 for a one-bedroom unit, $1,373 for a two-bedroom unit and $1,573 for a three-bedroom unit accurately reflect current affordable rent levels for the Worcester HMFA under the NEF Program, plus utility allowances of $126, $135, $195, and $239 for the studio, one, two- and three-bedroom units, respectively.

A letter of interest was provided by Rockland Trust, a member bank of the Federal Home Loan Bank of Boston.

(b) that the site of the proposed Project is generally appropriate for residential development, taking into consideration information provided by the Municipality or other parties regarding municipal actions previously taken to meet affordable housing needs, such as inclusionary zoning, multifamily districts adopted under c.40A, and overlay districts adopted under c.40R, (such finding, with supporting reasoning, to be set forth in reasonable detail);

Based on a site inspection by MassHousing staff, internal discussions, and a thorough review of the application, MassHousing finds that the Site is suitable for residential use and development, that such use would be compatible with surrounding uses, and would directly address the local need for affordable housing. While currently occupied by a non-conforming use (Mahoney's Garden Center) the Site is zoned for single-family residential development, suggesting that it is generally appropriate for residential use, and is in close proximity to area commuter routes and services. Water, gas and electricity are currently supplied to the Site.

Section IV-A (3) (a) of the Guidelines provide guidance to Subsidizing Agencies for evaluating a municipality's actions intended to meet affordable housing needs. MassHousing reviewed the information provided by the Wayland Board of Selectmen in their letter dated July 26, 2016 describing previous municipal actions intended to provide affordable housing. Selectmen

summarized the steps taken to date in support of the development of the 188-unit River's Edge rental development, including the identification of Town-owned land, allocation of CPA funds for pre-development, successful passage of a new zoning district, and the near completion of the developer selection process.

While MassHousing recognizes Wayland's efforts as meaningful, municipal actions to date have not resulted in housing production of a "character and scale to create significant opportunities as-of-right to meet the municipality's need for affordable housing as measured by the Statutory Minima." According to DHCD's Chapter 40B Subsidized Housing Inventory (SHI), updated through December, 2014, Wayland has 198 Subsidized Housing Inventory (SHI) units (3.99 % of its housing inventory). (It should be noted that according to the Town of Wayland's July 2016 Housing Production Plan, the Town currently has 258 units of affordable housing (5.2%). The additional units have recently been submitted to DHCD for inclusion in the Inventory. If these units are added to the SHI, an additional 238 would be required for Wayland to achieve the 10% threshold of 496.)

U.S. Census data from the 2010-1014 American Community Survey (ACS) further supports the need to increase the supply of affordable housing in Wayland. According to the ACS, of the 5,153 households in the Town of Wayland, approximately 42% earned less than 80% of the 2016 AMI ($98,100), 14% earned less than 30% AMI; 20.8% earned less than 50% AMI, and 23.9% earned less than 60% AMI. Additionally, Wayland's recently updated Housing Production Plan identified a need for additional rental housing, noting an 88.7% rate of homeownership as of 2010. They identify, as a goal, "the creation of a mix of rental and homeownership opportunities," and note the Town's commitment to "work with developers to create a diversity of housing types directed to different populations." The Brookside Project directly supports this goal.

(c) that the conceptual project design is generally appropriate for the site on which it is located, taking into consideration factors that may include proposed use, conceptual site plan and building massing, topography, environmental resources, and integration into existing development patterns (such finding, with supporting reasoning, to be set forth in reasonable detail)

- **Relationship to Adjacent Building Typology (Including building massing, site arrangement, and architectural details):**

  Buildings in close proximity to the Site accommodate a variety of uses (temple, assisted living facility, multi-family housing, mosque and restaurant along with more traditional single-family homes), and thus vary widely in style, size and materials. Throughout much of the rest of Wayland, however, the majority of buildings are 1-3 story, wood-frame Capes and Colonial-style single-family homes.

  The proposed Project building is a four-story, wood-frames structure, and includes detailing suggestive of the Victorian Shingle-style such as clapboard siding accented with architectural shingles, high peaked dormers, and a central turret feature. The building's "T" shaped configuration, dropped roofline and articulated façade help to mitigate building mass and

height. While distinct in character from the more simple single-family residential architecture prevalent throughout Wayland, the building elevations are traditional in style, and appear to be compatible with Wayland's lower-density suburban context.

- **Relationship to adjacent streets/Integration into existing development pattern**
  The proposed Project entrance is located directly across Boston Post Road from Rich Valley Road, creating a four-way, stop-controlled intersection. Sight lines appear to be sufficient in all directions.

  The Site is currently occupied by Mahoney's Garden center, and the surrounding pattern of development is characterized by a mix of land uses, including small-scale multi-family housing, a large assisted living facility, a temple, a mosque, a gas station and a restaurant. The Site is also less than ½ mile from Wayland's small commercial center, which includes a modest assortment of commercial uses (bank, gas station, liquor store and eating establishments, etc.) While the majority of land in Wayland is characterized by traditional, single-family development, the introduction of a multi-family use at this particular location will be compatible within the surrounding mixed-use context.

  Density
  The Developer intends to build 60 homes on 6.49 acres (5.6 buildable acres). The resulting density is 10 units per buildable acre, which is at the lower range for multi-family housing in a suburban context.

- **Conceptual Site Plan**
  The Site Plan concentrates development in the northeast corner, leaving the remainder of the property as open space, and effectively avoiding the more sensitive resource areas on the southern side of the Site. The site driveway enters the site at a location immediately across Route 20 from Rich Valley Road, branches off to a small, circular turn-around at the building's front entrance, continues to the garage entrance on the building's western side, and then around to the south side of the building. The bulk of the parking (seventy one parking spaces) will be located in a garage below the building, further reducing impervious surface and site disturbance. A limited amount of guest parking (approximately 20 spaces) is located in pull-in parking areas adjacent to the driveway.

  Environmental Resources
  The rear (southern) portion of the Site includes areas of bordering vegetated wetland and a section of the Pine Brook. The proposed building and associated infrastructure are all located in an upland area in the northeastern corner of the Site, minimizing resource impacts.

  Because the Site is already occupied by Mahoney's Garden Center, Brookside is a redevelopment project that will requirement minimal new clearing, and will, when complete, include more undeveloped open space than it currently does. Additionally, the project narrative indicates that proposed site work includes restoration of existing wetland disturbances, though no details are provided about specific remediation actions.

Topography
The Site slopes down from its frontage along the Boston Post Road to a low point in the western corner, where the Pine Brook runs along the property's rear (southern) boundary, traversing to its southeastern corner. The proposed Project building is sited on an upland area in the northeastern corner of the Site, set back approximately 50' from the Boston Post Road and 25' from the adjacent property boundary. While the building's location will be clearly visible from the right-of-way, adjacent properties to the east are heavily screened by existing vegetation. The building's location in the northeastern corner of the Site allows for the remainder of the property (80-90%) to remain open, and the more sensitive riverfront area near the Pine Brook to remain undisturbed.

(d) that the proposed Project appears financially feasible within the housing market in which it will be situated (based on comparable rentals or sales figures);

The Applicant proposes 60 rental apartments to be financed under the NEF Program. There will be 45 market-rate units with proposed average rent levels of $1,646 for the studio apartments, $1,738-2,111 for the one bedroom units; $2,666-2,833 for the two-bedroom units; and $3,023 for the three-bedroom units. A&M determined that the developer's proposed affordable rents and utility costs comply with 40B Guidelines, and market rents fall well within the range of adjusted comparable market rents for all unit sizes.

MassHousing's Appraisal and Marketing Department (A&M) performed a preliminary analysis of Project feasibility based on the area's market conditions and comparable rents. In summary, A&M found that a strong demand exists for both lower income and market-rate rental units in Wayland and the surrounding communities. A&M reported that while the area's conventional apartment market has been expanding, occupancy rates have been rising.

A&M noted that the proposal does not appear to include some of amenities found at higher end comparable properties in similarly affluent communities nearby such as Lexington, Concord and Wellesley. They also noted, however, the particularly limited supply of rental housing in Wayland. A&M recommends that a full market study be conducted prior to Final Approval in order to determine the depth of the market for rental housing in this location at that time.

(e) that an initial pro forma has been reviewed, including a land valuation determination consistent with the Department's Guidelines, and the Project appears financially feasible and consistent with the Department's Guidelines for Cost Examination and Limitations on Profits and Distributions (if applicable) on the basis of estimated development costs;

MassHousing has commissioned an as "As-Is" appraisal which indicates a land valuation of $980,000. A preliminary review of the Project pro-forma indicates that the per-unit construction costs are well within the normal range for similar multi-family developments in the suburban Metro Boston context. Based on a proposed investment of $4,943,583 in private equity, the application pro forma appears to be financially feasible and within the limitations on profits and distributions.

(f) that the Applicant is a public agency, a non-profit organization, or a Limited Dividend Organization, and it meets the general eligibility standards of the housing program; and

The Applicant must be organized as a Limited Dividend Organization. MassHousing sees no reason this requirement could not be met given information reviewed to date. The Applicant meets the general eligibility standards of the NEF housing subsidy program and has executed an Acknowledgment of Obligations to restrict their profits in accordance with the applicable limited dividend provisions

(g) that the Applicant controls the site, based on evidence that the Applicant or a related entity owns the site, or holds an option or contract to acquire such interest in the site, or has such other interest in the site as is deemed by the Subsidizing Agency to be sufficient to control the site.

The Applicant controls the entire by virtue of a Purchase and Sale Agreement dated December 31, 2015 between Mahoney's Garden Center (Seller) and Eden Management (Buyer). The expiration date for the P&S is the July 31, 2017.

Re Mass Housing Id # 851

Dear Undersecretary Kornegay

Please be advised that the above project, as identified by Project Eligibility Letter #851, has been submitted to the Wayland Zoning Board of Appeals in the form of a Comprehensive permit.

Please do not hesitate to contact us should you have any questions.

Respectfully submitted,

Steven N. Zieff

PURCHASE AND SALE AGREEMENT
113 BOSTON POST ROAD
AND
115-121 BOSTON POST ROAD, WAYLAND, MA

PREAMBLE: The Property is zoned Residence 40,000 – 180' frontage. Seller operates a garden center at the Property pursuant to an exemption provided by M.G.L. 40A ⊙ 3. While its present use in unaffected by the zone, the garden center land use and associated impacts are either protected or preexisting non-conforming. The Parties agree securing land use permits and relief in the Wayland is empirically difficult. In order to economically justify the Purchase Price the Purchaser needs to secure certain land use permits and relief. This Agreement allows the Purchaser sufficient time to secure the necessary zoning relief and land use permits to build and occupy a residential multifamily mixed use facility, or in the event the Town rejects this concept, a multiple unit single family dwelling layout. Both Purchaser and Seller are concerned with their legacy and will operate to support their mutual strategic interests.

The Preamble is not a term or provision of the Agreement.

ARTICLE 1: PROPERTY/PURCHASE PRICE

1.1 Certain Basic Terms.

(a) Seller: Mahoney's Garden Centers LLC.

(b) Purchaser: Eden Management, Inc.

(c) Date of this Agreement: 12.31, __, 2015

(d) Purchase Price: $2,125,000.00

(e) Due Diligence Period: The period beginning on the date of this Agreement and ending the latter of: (a) at 5:00 p.m. Eastern Time on the 60th day after the date of this Agreement or: (b) ending 60 days of the definitive action of the Wayland Board of Selectmen approval of a warrant article for a new Zone for the property on the Town Meeting Warrant (either Spring or Fall). Should the 60th day fall on a holiday or weekend, the Due Diligence Period shall be extended to the first business day.

(f) Closing Date: a date mutually agreed upon by the Parties no earlier than 45 days after receipt of a building permit for the intended use, no later than July 31, 2017. The Parties may mutually accelerate or extend the Closing Date, in the event of an appeal or for their convenience.

(g) Title Company: Commonwealth Land Title Company

(h) Broker: Not applicable

1.2 Property. Subject to the terms and conditions of this Purchase and Sale Agreement (this "Agreement"), Seller agrees to sell to Purchaser, and Purchaser agrees to purchase from Seller, the following property (collectively, the "Property"); as is with no alteration of the Property permitted except as provided herein.

(a) The "Real Property," being the land described in Exhibit A hereto, together with (i) all improvements located thereon (the "Improvements"), and (ii) the rights, benefits, privileges, easements, tenements, hereditaments and appurtenances thereon or thereto, including any right, title and interest of Seller in and to adjacent streets, alleys or rights-of-way or in anywise appertaining to such real property. The Real Property is located at 113 Boston Post Road and 115-121 Boston Post Road, Wayland, Massachusetts. The Seller retains the option to remove any structure above the surface of the site prior to the Closing Date, subject to the permission of the Purchaser.

(b) The "Intangible Personal Property," being all of Seller's right, title and interest in and to all intangible personal property related to the Real Property, including, without limitation: the plans and specifications and other architectural and engineering drawings related to the Improvements; warranties; and governmental permits, approvals and licenses relating to the Real Property.

1.3 Deposit; Certain Remedies.

(a) Initial Deposit shall be One Thousand Dollars ($1,000.00) cash with signed Purchase and Sale Agreement. Per the provisions chronologically set forth on Exhibit "E" of "Benchmark Dates", the Deposit shall increase after the waiver of the Due Diligence Period, and the Zone Change milestones are achieved. Deposits (initial and subsequent, if any) shall be held by a mutually acceptable escrow agent. Retention of said Deposit shall be Seller's sole remedy at law or in equity for Buyer's default. In the event Buyer accepts the results of the Due Diligence Period, Buyer shall increase Deposit by Fourteen Thousand Dollars ($14,000.000). Upon written acceptance of zoning bylaw by the Attorney General, Deposit shall be increased by $85,000.00 for a total of $100,000.00. In the event the milestones set forth on Exhibit "E" is not achieved on or before July 31, 2016 Buyer shall be in default and retention of the total deposit shall be Seller's sole remedy at law and in equity. See Exhibit "E" regarding timing of Zoning Adoption and possible right to extend.

(b) Title Company shall serve as escrow agent for the transaction contemplated by this Agreement. Title Company shall hold the Deposit in an interest bearing account reasonably acceptable to Purchaser and Seller and shall disburse the Deposit in accordance with the terms of this Agreement. Interest earned on the Deposit shall follow the Deposit. The duties of Title Company hereunder are purely ministerial in nature and shall be expressly limited to the safekeeping and disposition of the Deposit in accordance with this Agreement. Title Company shall incur no liability in connection with the safekeeping or disposition of the Deposit for any reason other than Title Company's willful misconduct or gross negligence. In the event that Title Company shall be in doubt

as to its duties or obligations with regard to the Deposit, or in the event that Title Company receives conflicting instructions from Purchaser and Seller with respect to the Deposit, Title Company shall not be required to disburse the Deposit and may, at its option, continue to hold the Deposit until both Purchaser and Seller agree as to its disposition, or until a final judgment is entered by a court of competent jurisdiction directing its disposition, or Title Company may interplead the Deposit in a Massachusetts court in accordance with the laws of the Commonwealth of Massachusetts. Title Company shall not be responsible for any interest on the Deposit except as is actually earned. Title Company shall execute this Agreement solely for the purpose of being bound by the provisions of this Section 1.3(b).

(c) If Purchaser should fail to consummate the purchase of the Property for any reason other than Seller's default, failure of a contingency or condition to Purchaser's obligation to close, or the exercise by Purchaser of an express right of termination granted herein, Seller's sole remedy in such event shall be to terminate this Agreement (excluding those indemnities which expressly survive termination) and to retain the Deposit as liquidated damages, Seller waiving all other rights or remedies in the event of such default by Purchaser. The parties acknowledge that Seller's actual damages in the event of a default by Purchaser under this Agreement will be difficult to ascertain, and that such liquidated damages represent the parties' best estimate of such damages.

(d) If, on or prior to the Closing Date, Seller shall default in the performance of Seller's obligations under this Agreement and Purchaser does not wish to waive such default, Purchaser, as its sole and exclusive remedies for such default, may either:

(i) terminate this Agreement, in which event Purchaser shall be entitled to

(A) the immediate return of the Deposit shall be delivered to Seller; and

(B) recover Purchaser's actual out-of-pocket costs incurred in connection with negotiating and pursuing this Agreement, or

(ii) enforce this Agreement by specific performance against Seller and recover Purchaser's actual out-of-pocket costs in connection with such enforcement, including, but not limited to, reasonable attorneys' fees; provided that if specific performance is not available to Purchaser as a remedy, Purchaser may pursue damages against Seller.

ARTICLE 2: INSPECTION

2.1 Seller's Delivery of Specified Documents. Within one business day after the date of this Agreement, Seller shall deliver to Purchaser true, correct and complete copies of the following documents relating to the Property, to the extent that such documents are in the possession or control of Seller, any affiliate of Seller, or any of their

respective agents, attorneys, accountants or other representatives (the "Documents"), to the extent not previously provided to Purchaser:

(a) Appraisals and Physical Inspection Reports. Any appraisals and any architectural, engineering and/or physical inspection reports related to the Property;

(b) Environmental Reports and Materials. Copies of all reports, permits, studies, analyses, documents and materials related to the environmental condition of the Real Property and/or the presence or absence of, and/or any bids, proposals or contracts for removal or remediation of, any Hazardous Materials (as defined below) located in, on, under, about and/or around the Real Property;

(c) Plans and Specifications. All construction plans and specifications relating to any Improvements;

(d) Existing Title Policies and Surveys. Copies of any existing title insurance policies and ALTA "as built" or other surveys with respect to the Real Property;

(e) Certificates of Occupancy, Licenses, Permits and Governmental Approvals. Copies of all certificates of occupancy, licenses, permits, governmental approvals and notices issued by any governmental authority, insurance company or underwriter relating to the Property; and

(f) Pending or Threatened Proceedings. A list of all pending or threatened lawsuits, administrative proceedings, enforcement actions, governmental inquiries, tax appeals and/or other proceedings affecting the Property and/or Seller.

Upon delivery of the last of the foregoing, Seller shall deliver to Purchaser a written notice certifying that all such deliveries have been completed. Seller shall promptly provide to Purchaser true, correct and complete copies of any documents described above which come into Seller's possession or are produced by Seller after the initial delivery referred to above and shall continue to promptly provide same during the pendency of this Agreement. Purchaser acknowledges that the Documents and all other information of any kind provided to Purchaser are provided for informational purposes only and do not constitute representations or warranties of any kind. Upon any termination of this Agreement other than by reason of a default by Seller, Purchaser shall return the Documents to Seller.

2.2 Due Diligence.

(a) Purchaser shall have through 5:00 p.m. Eastern Time on the last day of the Due Diligence Period in which to examine, inspect and investigate the Property at its sole cost and expense, and, in Purchaser's sole and absolute judgment and discretion, to determine whether the Property is acceptable to Purchaser. Purchaser may terminate this Agreement by giving notice of termination to Seller by 5:00 p.m. Eastern Time on the last day of the Due Diligence Period. If this Agreement terminates pursuant to this Section

2.2(a), the Deposit shall be refunded to Purchaser immediately upon request, and all further rights and obligations of the parties under this Agreement shall terminate, except those obligations which expressly survive termination. If Purchaser does not elect to terminate this Agreement by the end of the Due Diligence Period, Purchaser shall have no further right to terminate this Agreement pursuant to this Section 2.2(a), and the entire Deposit shall become non-refundable, except as otherwise provided in this Agreement.

(b) Purchaser and Purchaser's agents, employees, representatives, contractors, architects, engineers, consultants, appraisers, lenders and designers shall have reasonable access to the Property for the purpose of conducting appraisals, surveys, architectural, engineering, geotechnical wetland delineation and environmental inspections and tests, and any other inspections, studies or tests as Purchaser, in its sole discretion, determines to conduct. Purchaser will indemnify, defend, and hold Seller harmless from all liens, claims and liabilities asserted against Seller as a result of any such entry, inspections or tests by Purchaser, its agents, employees, representatives, contractors, architects, engineers, consultants, appraisers, lenders and designers. If any inspection or test disturbs the Property, Purchaser shall, provided that Purchaser receives a notice from Seller requesting restoration within ten days after termination of this Agreement, promptly restore the Property to substantially the same condition as existed prior to any such inspection or test (but Purchaser shall not be required to so restore the Property if Closing occurs).

(c) Purchaser and its agents, employees, representatives, contractors, architects, engineers, consultants, appraisers, lenders and designers shall have a continuing right of reasonable access to the Property during the pendency of this Agreement and the right to conduct a "walk-through" of the Property prior to the Closing. Purchaser may make inquiries to third parties, including, without limitation, lenders, contractors, property managers and municipal, local, and other government officials and representatives, and Seller consents to such inquiries.

ARTICLE 3: TITLE AND SURVEY REVIEW

3.1 Title Commitment and Survey. Purchaser shall obtain: (i) a commitment for title insurance (the "Title Commitment") issued by Title Company with respect to the Real Property with Purchaser as the proposed insured, and accompanied by copies of all documents referred to in the Title Commitment; (ii) a current survey of the Real Property (the "Survey") satisfying Purchaser's survey requirements, addressed to Purchaser, Title Company and such other parties as Purchaser may specify; and (iii) Uniform Commercial Code searches in the name of Seller. Any amount of Title Insurance in excess of the Purchase Price shall be the liability of the Buyer.

3.2 Title Review and Cure. If any of the exceptions set forth in Schedule B of the Title Commitment or any matter disclosed by the Survey is unsatisfactory to Purchaser, Purchaser may object to such title exception or survey matter (any such title exception or survey matter to which Purchaser objects being called a "Noted Exception") by written notice given to Seller no later than the end of the Due Diligence Period. Seller

may, within five business days after Purchaser gives such notice of objection to a Noted Exception (such five business day period being called the "Response Period"), give Purchaser written notice that Seller will cure such Noted Exception, in which event Seller shall cure such Noted Exception at or prior to Closing. If Seller does not, within the Response Period, give Purchaser written notice that Seller will cure a Noted Exception to which Purchaser has objected as provided above, Purchaser may, by written notice given to Seller within five business days after expiration of the Response Period, terminate this Agreement by giving written notice to Seller, in which case the Deposit shall be returned by Title Company to Purchaser. If Purchaser does not so terminate this Agreement within five business days after expiration of the Response Period, Purchaser will be deemed to have waived the objection to the Noted Exception and the transaction shall proceed without reduction in the purchase price. All title exceptions and survey matters existing as of the date of this Agreement to which Purchaser does not object by the end of the Due Diligence Period as provided above, together with any Noted Exceptions to which Purchaser objects but subsequently waives the objection, are collectively called the "Permitted Exceptions;" provided that in no event shall any lien which may be satisfied by payment of a liquidated amount, other than real estate taxes not yet due, be a Permitted Exception, and Seller shall be obligated to cause all such liens to be satisfied and released at or prior to Closing.

3.3 Title Policy. At the Closing, as a condition to Purchaser's obligation to close, Title Company shall deliver to Purchaser, upon payment of the usual and customary premium, an ALTA Form B Owner's Policy of Title Insurance ("Title Policy") issued by Title Company in accordance with the Title Commitment, with ALTA General Exceptions I through 3 (provided Purchaser obtains an ALTA survey of the Property) and Exclusion from Coverage 4 deleted, containing the endorsements and affirmative insurance coverage specified in the Title Commitment, dated the date and time of the recording of the Deed (defined below) insuring Purchaser as owner of fee simple title to the Real Property, subject only to the Permitted Exceptions. Any amount of Title Insurance in excess of the Purchase Price shall be the liability of the Buyer. Seller shall execute at Closing, an affidavit in a form such that Title Company will delete the exceptions as to parties in possession, unrecorded liens, broker's liens and similar matters. The Title Policy may be delivered after the Closing if, at the Closing, Title Company issues a currently effective, duly-executed "marked-up" Title Commitment and irrevocably commits in writing to issue the Title Policy consistent with the "marked-up" Title Commitment within seven days after the Closing Date.

3.4 Title and Survey Costs. The cost of the Survey, including any necessary revisions and updates, the premium for the Title Policy and all other title charges of Title Company shall be paid for by Purchaser.

ARTICLE 4: OPERATIONS AND RISK OF LOSS

4.1 Performance under Agreements. During the pendency of this Agreement, Seller will fully and timely perform all of its obligations under all agreements affecting the Property.

4.2 Contracts. During the pendency of this Agreement, without the prior written consent of Purchaser, Seller will not enter into any agreement (including any easement or similar instrument) that creates an obligation affecting the Property subsequent to the Closing.

4.3 Other Offers. During the pendency of this Agreement, Seller will not solicit or make or accept any offers to sell the Property or any portion thereof, engage in any discussions or negotiations with any third party with respect to the sale or other disposition of the Property or any portion thereof, or enter into any contracts or agreements regarding any disposition of the Property or any portion thereof.

4.4 Leases. During the pendency of this Agreement, Seller shall not enter into any lease of any portion of the Property that would survive the Closing.

4.5 Operations. During the pendency of this Agreement, Seller shall (a) keep the Property in as good condition and repair as exists on the date of this Agreement, (b) make and perform any and all maintenance, repairs, improvements and replacements as may be necessary or appropriate to operate the Property in a manner consistent with past practice, (c) comply with all applicable laws, rules, regulations and orders affecting the Property, and (d) maintain the presently existing property insurance on the Property. Prior to Closing, Seller shall remove all tangible personal property from the Real Property except any tangible property parties desire to remain by mutual consent, in writing.

4.6 Damage. Subject to the utility of the permits and relief secured by the Buyer, in the event buildings are damaged, the Closing will still proceed, as the buildings are not material to the anticipated use and therefore all insurance proceeds are property of Seller.

4.7 Condemnation. Seller shall immediately notify Purchaser in the event that Seller is notified or otherwise becomes aware that proceedings in eminent domain are contemplated or threatened or have been instituted with respect to the Property or any portion thereof by anybody having the power of eminent domain. Purchaser may by notice to Seller given within 30 days after Purchaser receives Seller's notice as aforesaid (and if necessary the Closing Date shall be extended to give Purchaser the full 30 day period to make such election): (a) terminate this Agreement, in which even the Deposit, other than the Independent Consideration which shall be delivered to Seller, shall be immediately returned to Purchaser; or (b) proceed under this Agreement, in which event Seller shall, at the Closing, (i) give Purchaser a credit against the Purchase Price equal to any amounts received by Seller on account of any such proceeding and (ii) assign to Purchaser its entire right, title and interest in and to any condemnation award, and Purchaser shall have the sole right during the pendency of this Agreement to negotiate and otherwise deal with the condemning authority in respect of such matter.

4.8 Adverse Conditions. As a condition precedent to Purchaser's obligation to consummate the transaction contemplated by this Agreement, Seller shall have complied with its obligations under this Article 4 and there shall have been no material adverse change in the condition of or affecting the Property (including, but not limited to, any material adverse environmental or physical change in the condition of the Real Property) that has occurred after the date hereof. If a material adverse change has occurred, Purchaser may (a) terminate this Agreement, in which event, notwithstanding anything to the contrary contained in this Agreement, the Deposit, other than the Independent Consideration which shall be delivered to Seller, shall be returned to Purchaser, or (b) proceed pursuant to this Agreement.

ARTICLE 5: CLOSING

5.1 Closing. The Closing shall occur on the Closing Date in escrow through Title Company.

5.2 Conditions to the Parties' Obligations to Close. In addition to all other conditions set forth elsewhere in this Agreement, the obligation of Seller, on the one hand, and Purchaser, on the other hand, to consummate the transactions contemplated under this Agreement shall be contingent upon the following:

(a) The other party's representations and warranties contained herein shall be true and correct in all material respects as of the date of this Agreement and the Closing Date; and

(b) As of the Closing Date, the other party shall have performed its obligations hereunder and all deliveries to be made at Closing by the other party shall have been tendered (provided, however, that neither party need perform its obligations hereunder nor tender the deliveries required of such party hereunder in the event of a breach or anticipatory breach of this Agreement by the other party).

So long as a party is not in default hereunder, if any condition to such party's obligation to proceed with the Closing hereunder has not been satisfied as of the Closing Date, such party may, in its sole discretion, terminate this Agreement by delivering written notice to the other party on or before the Closing Date, or elect to close, notwithstanding the non-satisfaction of such condition, in which event such party shall (i) be deemed to have waived such condition if such condition has not been satisfied for reasons other than a default by the other party hereto or (ii) not be deemed to have waived such condition if such condition has not been satisfied due to a default by the other party hereto. In the event that, in the case of clause (ii) above, the non-defaulting party elects to close, notwithstanding the nonsatisfaction of the applicable condition, the defaulting party shall be fully liable for any failures on the part of the defaulting party to perform its obligations under this Agreement and for any breaches of representations and warranties by the defaulting party regardless of whether or not the non-defaulting party had actual knowledge at Closing.

5.3 Additional Conditions to Purchaser's Obligation to Close. In addition to all other conditions set forth elsewhere in this Agreement, the obligation of Purchaser to consummate the transactions contemplated under this Agreement shall be contingent upon the following:

(a) There shall exist no actions, suits, arbitrations, claims, attachments, proceedings, assignments for the benefit of creditors, insolvency, bankruptcy, reorganization or other proceedings, pending or threatened against Seller that would, if determined adversely to Seller, materially and adversely affect the operation or value of the Property or Seller's ability to perform its obligations under this Agreement; and

(b) There shall exist no pending or threatened action, suit or proceeding with respect to Seller or the Property before or by any court or administrative agency which seeks to restrain or prohibit, or to obtain damages or a discovery order with respect to, this Agreement or the consummation of the transactions contemplated hereby.

5.4 Seller's Deliveries in Escrow. At the Closing, Seller shall deliver or cause to be delivered in escrow to Title Company the following:

(a) Deed. A quitclaim deed in the form of Exhibit B hereto (the "Deed"), executed by Seller, conveying to Purchaser fee simple title to the Real Property, subject only to the Permitted Exceptions.

(b) Bill of Sale. A Bill of Sale in the form of Exhibit C hereto, executed by Seller, with respect to the Intangible Personal Property.

(c) Certificate of Representations and Warranties. A certificate in the form of Exhibit D hereto, signed by Seller and reaffirming and updating to the Closing Date the representations and warranties given by Seller under Section 7.1.

(d) Title Clearance Instruments. Such other instruments as shall be reasonably required by Title Company for the purpose of issuing an owner's title insurance policy at standard rates insuring title to the Property as set forth in Section 3.3, including such affidavits and indemnity agreements as may be customary for (i) deleting exceptions for mechanics' and materialmen's liens, unrecorded easements, rights of parties in possession and lien rights of brokers, (ii) limiting persons in possession, and (iii) providing so called "gap" or "New York Style" insurance coverage.

(e) FIRPTA. A FIRPTA Certificate in form complying with applicable law certifying that Seller is not a foreign person within the meaning of the Internal Revenue Code.

(f) Authority. Evidence of existence, good standing, organization, and authority of Seller and the authority of the persons executing documents on behalf of Seller satisfactory to Purchaser and Title Company.

(g) Additional Documents. Any additional documents that Purchaser or Title Company may reasonably require for the proper consummation of the transactions contemplated by this Agreement.

5.5 Purchaser's Deliveries in Escrow. At the Closing, Purchaser shall deliver in escrow to Title Company the following:

(a) Purchase Price. The Purchase Price, plus or minus applicable prorations, credits and adjustments, in immediate, same-day federal funds wired for credit into Title Company's escrow account.

(b) Additional Documents. Any additional documents that Seller or Title Company may reasonably require for the proper consummation of the transactions contemplated by this Agreement.

5.6 Closing Statements/Escrow Fees. At the Closing, Seller and Purchaser shall execute closing statements consistent with this Agreement in form required by Title Company. Title Company's escrow fee, if any, shall be shared equally by Seller and Purchaser.

5.7 Title Policy. Title Company shall deliver to Purchaser the Title Policy pursuant to Section 3.3.

5.8 Possession. Seller shall deliver possession of the Property to Purchaser at the Closing subject to the Permitted Exceptions.

5.9 Delivery of Books and Records. At the Closing, Seller shall deliver to Purchaser copies or originals of all books and records with respect to the Property excepting any records related to the operation of a nursery and garden center.

5.10 Close of Escrow. Upon satisfaction or completion of the foregoing conditions and deliveries set forth in Sections 5.2 through 5.9, the parties shall direct Title Company to immediately record and deliver the documents described above to the appropriate parties, and make disbursements according to the closing statements executed by Seller and Purchaser.

ARTICLE 6: PRORATIONS AND ADJUSTMENTS IN COMPLIANCE WITH MASSACHUSETTS CONVEYANCER'S HANDBOOK.

6.1 Prorations. Real estate taxes and assessments imposed by governmental authority ("Taxes") and any assessments by private covenant constituting a lien or charge on the Property for the then-current calendar year or other current tax period not yet due and payable shall be prorated between Seller and Purchaser as of the close of the day immediately preceding the Closing Date. If the Closing occurs prior to the receipt by

Seller of the tax bill for the calendar year or other applicable tax period in which the Closing occurs, Purchaser and Seller shall prorate Taxes for such calendar year or other applicable tax period based upon the most recent ascertainable assessed values and tax rates. Seller shall pay all delinquent Taxes and assessments and all Taxes and assessments due for all prior calendar years. Water and sewer charges, including any such charges which may be the subject of a municipal lien, whether or not due, shall be prorated.

6.2 Closing Costs. Closing costs shall be allocated and paid as follows:

Cost	Responsible Party
Title Commitment if required	Buyer
Premium for standard form Title Policy required to be delivered	Buyer
Premium for any upgrade of Title Policy for extended or additional coverage and any endorsements desired by Buyer, any inspection fee charged by the Title Agent, tax certificates, municipal and utility lien certificates, and any other Title Agent charges	Buyer
Costs of Survey and/or any revisions, modifications or re-certifications thereto	Buyer
Costs for UCC Searches performed by Buyer	Buyer
Recording Fees for the Quitclaim Deed to Buyer	Buyer
Recording Fees for mortgage discharges or other instruments to clear title	Seller
Any deed taxes, documentary stamps and transfer taxes	Seller
Any escrow fee charged by Escrow Agent for holding the Earnest Money or conducting the Closing	Buyer ½ Seller ½
All other closing costs, expenses, charges and fees	The party customarily responsible for paying such costs in connection with the sale of commercial real estate in Boston, Massachusetts

6.3 Sale Commissions. NO BROKER.

ARTICLE 7: REPRESENTATIONS AND WARRANTIES

7.1 Seller's Representations and Warranties. As a material inducement to Purchaser to execute this Agreement and consummate this transaction, Seller represents and warrants to Purchaser that:

(a) Organization and Authority of Seller. Seller is a Massachusetts limited liability company. Seller has the full right and authority and has obtained any and

all consents required to enter into this Agreement and consummate the transactions contemplated by this Agreement. This Agreement has been, and all of the documents to be delivered by Seller at the Closing shall be, duly authorized and properly executed and constitute the valid and binding obligations of Seller, enforceable in accordance with their terms.

(b) Conflicts and Pending Actions or Proceedings. There is no agreement to which Seller is a party or binding on Seller which is in conflict with this Agreement. There is no action or proceeding pending or, to Seller's knowledge, threatened against the Property, including, without limitation, any condemnation or re-zoning proceedings, any tax abatement or other action or proceeding with respect to the assessed valuation, real estate taxes and/or assessments affecting the Property, or any action or proceeding which challenges or impairs Seller's ability to execute or perform its obligations under this Agreement.

(c) Leases. There are no leases affecting the Property.

(d) Documents. Each of the Documents prepared by Seller or Seller's agents (the "Seller Prepared Documents") and delivered to Purchaser is a true, correct and complete copy of such Document. The Seller Prepared Documents do not and will not contain any misstatements or omissions of any material facts. Each of the Seller Prepared Documents is true and correct in all material respects. Each of the Documents delivered to Purchaser which is not a Seller Prepared Document (the "Other Documents") is a true, correct and complete copy of such Other Document as in the possession of Seller. Seller has no knowledge of any material omission or misstatement in any of the Other Documents and, to Seller's knowledge, each of the Other Documents is true and correct in all material respects.

(e) Notice of Violations or Defects. Seller has received no notice: (i) that the Property or the use thereof violates any governmental law or regulation or any covenants or restrictions encumbering the Property; (ii) that any material physical defect exists with respect to the Improvements; or (iii) from any insurance company or underwriter of any defect that would adversely affect the insurability of the Property or cause an increase in insurance premiums.

(f) ERISA. Seller does not contribute to any employee pension benefit plan that is subject to Title IV of ERISA, nor has it terminated or withdrawn from any such plan.

(g) Environmental. Other than as disclosed in documents furnished by Seller to Purchaser prior to the date of this Agreement or furnished by Seller to Purchaser pursuant to Section 2.1(e), Seller has no actual knowledge of any violation of Environmental Laws related to the Property or actual knowledge of the unlawful presence or release of Hazardous Materials on or from the Property or the presence of unlawful quantities of Hazardous Materials on the Property, including, without limitation, actual knowledge of any of the following: (i) Hazardous Materials located or stored on the

Property, released into the environment and/or discharged, placed or disposed of from, on or under the Property; (ii) tanks, storage vessels, drums, containers, or other man-made facilities (whether buried, partially-buried or above ground) located on the Property; (iii) use of the Property, or any portion thereof, as a dump for waste materials; and/or (iv) the dumping, discharge, burial or other release of Hazardous Materials on or under the Property, including into the soil, water, groundwater and/or any municipal or private sewer or drainage system. The term "Environmental Laws" includes without limitation the Resource Conservation and Recovery Act and the Comprehensive Environmental Response Compensation and Liability Act ("CERCLA") and other federal laws governing the environment as in effect on the date of this Agreement together with their implementing regulations and guidelines as of the date of this Agreement, and all state, regional, county, municipal and other local laws, regulations and ordinances that are equivalent or similar to the federal laws recited above or that purport to regulate Hazardous Materials. The term "Hazardous Materials" includes petroleum as defined in CERCLA and any substance, material waste, pollutant or contaminant listed or defined as hazardous or toxic under any Environmental Law. Pesticides lawfully used pursuant to FIFRA and/or the Commercial Pesticide Control Act shall not be considered "Hazardous Material."

(h) Condition of Property. Except for any express representations and warranties set forth in this Agreement or in any of the documents required to be delivered by Seller at closing (collectively, the "document representations"), the Property is to be sold pursuant to this Agreement as is, where is, with all faults and without any warranty, express or implied, all of which are hereby disclaimed by Purchaser. Except as provided in the document representations, no guarantees, representations or warranties, express or implied, are made by Seller with respect to the Property. Purchaser further acknowledges that any information Seller has provided to Purchaser has been provided to Purchaser for informational purposes only and that Seller does not represent, warrant or guarantee the contents or opinions contained in or the accuracy or completeness of any such information except as provided in the document representations. Purchaser's decision with respect to the ultimate purchase of the Property will be based solely upon its own investigation of the Property and upon the document representations. Purchaser agrees that Seller may remove from the Property any real or tangible property associated with the operation of the nursery and garden center. Seller acknowledges some fixtures may relate to "grandfathering" conditions and agree that any fixtures or structure that protects a "grandfather" condition shall remain until such time as Purchaser consents to its removal. Any property removed by the Seller shall be removed in a workman like matter satisfactory to the Purchaser. There shall be no further consideration for any real or tangible property lawfully removed.

7.2 Purchaser's Representations and Warranties. As a material inducement to Seller to execute this Agreement and consummate this transaction, Purchaser represents and warrants to Seller that:

(a) Organization and Authority. Purchaser has been duly organized and validly exists as a Massachusetts corporation. Purchaser has the full right and authority

and has obtained any and all consents required to enter into this Agreement and consummate the transactions contemplated by this Agreement. This Agreement and all of the documents to be delivered by Purchaser at the Closing have been and will be authorized and properly executed and will constitute the valid and binding obligations of Purchaser, enforceable in accordance with their terms.

(b) Conflicts and Pending Action. There is no agreement to which Purchaser is a party or binding on Purchaser which is in conflict with this Agreement. There is no action or proceeding pending or, to Purchaser's knowledge, threatened, against Purchaser which challenges or impairs Purchaser's ability to execute or perform its obligations under this Agreement.

7.3 Survival of Representations and Warranties. The representations and warranties set forth in this Article 7 are made as of the date of this Agreement and will be remade as of the Closing Date and shall not be deemed to be merged into or waived by Deed and/or other instruments delivered at Closing, but shall survive the Closing for a period of one year. Each party agrees to defend and indemnify the other against any claim, liability, damage or expense asserted against or suffered by such other party arising out of the breach or inaccuracy of any such representation or warranty.

ARTICLE 8: MISCELLANEOUS

8.1 Parties Bound. Seller may assign this Agreement to a qualified intermediary in connection with a like kind exchange pursuant to Section 1031 of the Internal Revenue Code. Purchaser may not assign this Agreement without the prior written consent of Seller; provided that Purchaser may assign this Agreement to a qualified intermediary in connection with a like kind exchange pursuant to Section 1031 of the Internal Revenue Code, or to a corporation, partnership, limited liability company, trust or other entity controlled by or under common control of Purchaser. No assignment of this Agreement by Purchaser shall operate to release Purchaser from its obligations under this Agreement. Subject to the foregoing, this Agreement shall be binding upon and inure to the benefit of the respective successors and assigns of the parties.

8.2 Headings. The article and section headings of this Agreement are for convenience only and in no way limit or enlarge the scope or meaning of the language hereof.

8.3 Invalidity and Waiver. If any portion of this Agreement is held invalid or inoperative, then so far as is reasonable and possible the remainder of this Agreement shall be deemed valid and operative, and effect shall be given to the intent manifested by the portion held invalid or inoperative. The failure by either party to enforce against the other any term or provision of this Agreement shall not be deemed to be a waiver of such party's right to enforce against the other party the same or any other such term or provision.

8.4 Governing Law. This Agreement shall, in all respects, be governed, construed, applied, and enforced in accordance with the law of the Commonwealth of Massachusetts.

8.5 Survival. Only (a) those provisions of this Agreement that contemplate performance after Closing or termination of this Agreement and (b) those provisions of this Agreement which are expressly stated to survive Closing or termination of this Agreement shall survive the Closing or termination of this Agreement.

8.6 No Third Party Beneficiary. This Agreement is not intended to give or confer any benefits, rights, privileges, claims, actions or remedies to any person or entity as a third party beneficiary or otherwise.

8.7 Seller and Purchaser acknowledge the existing nursery or garden center use may inure to the Purchaser's proposed land uses. In the same vein a retail tenancy of nursery or gardening situated in a mixed use on the site may inure to the Seller's business. To that end on or before Closing the parties shall enter a mutually agreeable First Right of Refusal that provides the Seller with an opportunity to lease a portion of the site, while allowing the Purchaser or any subsequent purchaser to maintain certain zoning exceptions under M.G.L. (Dover Amendment).

8.8 Entirety and Amendments. This Agreement embodies the entire agreement between the parties and supersedes all prior agreements and understandings relating to the Property. This Agreement may be amended or supplemented only by an instrument in writing executed by the party against whom enforcement is sought.

8.9 Time. Time is of the essence in the performance of this Agreement.

8.10 Confidentiality. Neither Seller nor Purchaser shall divulge the business particulars of this contemplated transaction without the prior written specific consent except as required by law. Purchaser and Seller may disclose the intent of this Agreement as necessary to perform their respective obligations hereunder.

8.11 Attorneys' Fees. Should either party employ attorneys to enforce any of the provisions hereof, the party losing in any final judgment agrees to pay the prevailing party all reasonable costs, charges and expenses, including reasonable attorneys' fees, actually expended or incurred in connection therewith.

8.12 Notices. All notices required or permitted hereunder shall be in writing and shall be served on the parties at the following address:

If to Purchaser: Eden Management Inc.
Attn: Steven N. Zieff
80 Hope Avenue Suite 512
Waltham MA 02453-2747
Telephone: (508) 269-6900

Email: szieff@edenmanagementinc.com

With a copy to:

Peter M. Daigle, P.C.
1550 Falmouth Road
Suite 10
Centerville MA 02632
Telephone: 508 771 7444
Email: pdaigle@daiglelawoffice.com

If to Seller:

Mahoney's Garden Centers LLC
Attn: Thomas Mahoney
242 Cambridge Street
Winchester, MA 01890
Telephone: (781) 729-5900
Email: tmahoney@mahoneysgarden.com

With a copy to:

Francis A. Di Luna, Esquire
Murtha Cullina LLP
600 Unicorn Park Drive
Woburn, MA 01801
Telephone: (781) 897-4981
E-mail: fdiluna@murthalaw.com

Any such notices shall be either (a) sent by certified mail, return receipt requested, in which case notice shall be deemed delivered and effective three business days after deposit, postage prepaid in the U.S. Mail, (b) sent by overnight delivery using a nationally recognized overnight courier, in which case it shall be deemed delivered and effective one business day after deposit with such courier, (c) sent by email, in which case notice shall be deemed delivered and effective upon receipt, or (d) sent by personal delivery, in which case notice shall be deemed delivered and effective upon delivery. The above addresses may be changed by written notice to the other party; provided, however, that no notice of a change of address shall be effective until actual receipt of such notice. Copies of notices are for informational purposes only, and a failure to give or receive copies of any notice shall not be deemed a failure to give notice. Notices by Purchaser and Seller may be given by their respective counsel.

8.12 Construction. The parties acknowledge that the parties and their counsel have reviewed and revised this Agreement and that the normal rule of construction to the effect that any ambiguities are to be resolved against the drafting party shall not be employed in the interpretation of this Agreement or any exhibits or amendments hereto.

8.13 Calculation of Time Periods. As used herein, "business day" shall mean any day in which banks are open in the Commonwealth of Massachusetts and which is not a Saturday, Sunday or legal holiday in the Commonwealth of Massachusetts. Unless otherwise specified, in computing any period of time described herein, the day of the act or event after which the designated period of time begins to run is not to be included and

the last day of the period so computed is to be included, unless such last day is not a business day, in which event the period shall run until the end of the next day which is a business day.

8.14 Further Assurances. In addition to the acts and deeds recited herein and contemplated to be performed, executed and/or delivered by Seller to Purchaser at Closing, Seller agrees to perform, execute and deliver, on or after the Closing any further deliveries and assurances as may be reasonably requested by Purchaser to consummate the transactions contemplated hereby or to further perfect the conveyance, transfer and assignment of the Property to Purchaser.

8.15 Relocation Sign. For six (6) months after the Closing Date Purchaser agrees to allow Seller to erect and maintain a "Relocation Sign" of similar size and in the same location as the current Mahoney signage directing customers and patrons to other Mahoney facilities.

8.15 Section 1031 Exchange. Seller and Purchaser shall cooperate fully with the other in order to facilitate Purchaser's or Seller's desire to structure the purchase of the Property as part of a so-called like kind exchange (the "Exchange") pursuant to Section 1031 of the Internal Revenue Code of 1986, as amended, if Purchaser or a Seller elects to effect an Exchange; provided that: (a) the Closing shall not be delayed or affected by reason of the Exchange, nor shall the consummation or accomplishment of the Exchange be a condition precedent or condition subsequent to Purchaser's obligations under this Agreement; (b) the Exchange shall not affect or diminish Purchaser's or Seller's rights under this Agreement; (c) neither Seller nor Purchaser shall be required to acquire or hold title to any real property for purposes of consummating the Exchange (Purchaser or Seller may use a qualified intermediary to acquire or hold title); and (d) with respect to any Exchange, the non-exchanging party shall not incur any out-of-pocket expense in facilitating the Exchange for the exchanging party (other than for review of documents related to the Exchange). Neither Seller nor Purchaser make representations nor guarantees to the other that the transaction contemplated under this provision will result in any particular tax treatment or will qualify as an exchange under Section 1031 of the Internal Revenue Code.

8.16 Limitation of Liability. No present or future officer, director, shareholder, employee, trustee, member, manager, partner, agent, beneficiary or representative of Seller or Purchaser shall be personally liable for any obligations of Seller or Purchaser under this Agreement.

8.17 Signatures; Counterparts. This Agreement may be executed by facsimile signature and/or in one or more counterparts, each of which shall be deemed an original and all of which together shall constitute one instrument.

8.18 Assignment. Assignment of this transaction may be made to a single asset entity in which the Buyer is a member.

8.19 Closing Costs. The Buyer and the Seller shall each pay the costs of its own consultants and legal counsel. Closing costs shall be paid as is customary in the Commonwealth of Massachusetts. See matrix at 6.2.

[execution on following page]

The parties have executed this Agreement as of the date first set forth above.

EXHIBIT C

BILL OF SALE

THIS BILL OF SALE is executed and delivered as of the ____ day of _____, 2014, by MAHONEY'S GARDEN CENTERS LLC, a Massachusetts limited liability company ("Grantor"), to _____ ("Grantee").

Contemporaneously herewith, Grantor is conveying to Grantee the land and building located at and commonly known as 113 Boston Post Road and 115-121 Boston Post Road, Wayland, Massachusetts (the "Real Estate").

For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor does hereby bargain, sell and deliver to Grantee all of Seller's right, title and interest in and to all intangible personal property related to the Real Property, including, without limitation, the plans and specifications and other architectural and engineering drawings related to the improvements to the Real Property, warranties, and governmental permits, approvals and licenses relating to the Real Property (collectively, the "Personal Property").

To have and to hold unto Grantee, it's successors and assigns forever.

Grantor hereby covenants and warrants to and with Grantee that (i) Grantor owns, and has the right to sell to Grantee, the Personal Property, (ii) the Personal Property is free and clear of all security interests, liens and encumbrances, and (iii) Grantor will warrant and defend the Personal Property against all lawful claims and demands which are contrary to the aforesaid covenants.

Except for the covenants and warranties relating to title contained in the immediately preceding paragraph, Grantor has not made and does not make any express or implied warranty or representation with respect to the Personal Property, including but not limited to merchantability of the Personal Property or its fitness for any particular purpose, the condition of the Personal Property, or the quality or capacity of the Personal Property.

Grantor has executed this Bill of Sale as of the date first set forth above.

ELOQUENT®

1st Amendment to PURCHASE AND SALE AGREEMENT
regarding
113, 115 - 121 BOSTON POST ROAD
WAYLAND, MA

Date November 11, 2016

Seller and Buyer acknowledge the zone change particulars outlined in the P&S were not complied with.
This non-compliance was a result of the Buyer's judgement, due diligence with the Town, due diligence with abutters and the Parties concurrent discussions.

Buyer and Seller wish to advance the agreement in keeping with present circumstances.

Except where superseded by Amendment Language, the Agreement and its terms remain in force.

Found below is the Original Language and the superseding Amendment Language:

ARTICLE 1: PROPERTY/PURCHASE PRICE
1.1 Certain Basic Terms

Original Language

(e) Due Diligence Period: The period beginning on the date of this Agreement and ending the latter of: (a) at 5:00 p.m. Eastern Time on the 60th day after the date of this Agreement or: (b) ending 60 days of the definitive action of the Wayland Board of Selectmen approval of a warrant article for a new Zone for the property on the Town Meeting Warrant (either Spring or Fall). Should the 60th day fall on a holiday or weekend, the Due Diligence Period shall be extended to the first business day.

Amendment Language

(e) Due Diligence Period: Expires November 11, 2016.

Original Language

(f) Closing Date: a date mutually agreed upon by the Parties no earlier than 45 days after receipt of a building permit for the intended use, no later than July 31, 2017. The Parties may mutually accelerate or extend the Closing Date, in the event of an appeal or for their convenience.

Amendment Language

(f) Closing Date: a date mutually agreed upon by the Parties no earlier than 45 days after receipt of a building permit for the intended use, no later than July 31, 2017. The Parties may mutually accelerate or extend the Closing Date, in the event of an appeal or for their convenience. An appeal shall warrant an extension with consideration equivalent to the opportunity costs as set forth hereto below, until it is resolved to the Buyer's satisfaction.

On the condition the Buyer has pursued but not secured the necessary permits by June 30, 2017, the Buyer may elect to extend the Closing Date beyond July 31, 2017. An extension beyond July 31 2017 shall be conditioned by:

1) Buyer shall notify Seller of its intent to extend on or before June 30, 2017.
2) Buyer shall continue to diligently pursue all necessary permits and approvals.
3) In the event of a Buyer initiates a month to month ~~6-month~~ extension to the Closing Date, Buyer agrees to pay Seller an extension fee at the Closing. Extension fee shall be the opportunity cost to the Seller for not receiving the Purchase Price on the original Closing Date. The opportunity cost shall be calculated as the Purchase Price outstanding between the original Closing Date and the extended Closing Date, at a 4% annual rate, compounded monthly.
4) Closing shall be coordinated with the Seller's necessities.
5) Parties acknowledge and agree Time Is Of The Essence.

1.3 Deposit; Certain Remedies.

Original Language

(a) Initial Deposit shall be One Thousand Dollars ($1,000.00) cash with signed Purchase and Sale Agreement. Per the provisions chronologically set forth on Exhibit "E" of "Benchmark Dates", the Deposit shall increase after the waiver of the Due Diligence Period, and the Zone Change milestones are achieved. Deposits (initial and subsequent, if any) shall be held by a mutually acceptable escrow agent. Retention of said Deposit shall be Seller's sole remedy at law or in equity for Buyer's default. In the event Buyer accepts the results of the Due Diligence Period, Buyer shall increase Deposit by Fourteen Thousand Dollars ($14,000.000). Upon written acceptance of zoning bylaw by the Attorney General, Deposit shall be increased by $85,000.00 for a total of $100,000.00. In the event the milestones set forth on Exhibit "E" is not achieved on or before July 31, 2016 Buyer shall be in default and retention of the total deposit shall be Seller's sole remedy at law and in equity. See Exhibit "E" regarding timing of Zoning Adoption and possible right to extend.

Amendment Language

(a) Initial Deposit shall be One Thousand Dollars ($1,000.00) cash with signed Purchase and Sale Agreement. With this Amendment the Buyer shall increase Deposit by Fourteen Thousand Dollars ($14,000.000) for a total of $15,000.

ARTICLE 8: MISCELLANEOUS

Original Language

8.18 Assignment. Assignment of this transaction may be made to a single asset entity in which the Buyer is a member.

Amendment Language (no change).

8.18 Assignment. Assignment of this transaction may be made to a single asset entity in which the Buyer is a member.

The parties have executed this Amendment as of the date first set forth above.

Notes:
The Brookside project site is occupied by a single family home, a retail garden center, several outbuildings, greenhouses and significant vehicular circulation and parking area.

Adjacencies include retail, restaurants, infrastructure, cultural, religious and residential uses. Much of the site is disturbed due to existing use. Historically, the uses of the site have been retail, residential and agricultural.

The site has more than 600' of frontage and several curb cuts on Route 20 / Boston Post Road. Traffic volume for this road is reported to be as much as 19,000 vehicles per day.

The topography of the area and the site is hilly with uplands and a low area corresponding to the Pine Brook meander.

Brookside will mitigate disturbance and maximize utility through a site plan that is sensitive to site and area characteristics, resources and requirements while complementing the existing patterns of grouped use and intensity.

Re: Proposed Residential Development
113-115 Boston Post Road
Wayland, Massachusetts

Traffic Impact Evaluation

Introduction

VHB has conducted a traffic impact assessment to evaluate the potential traffic impacts associated with the redevelopment of the existing Mahoney's Garden Center and a single-family residence located at 113-115 Boston Post Road (Route 20), Wayland, Massachusetts (the Site) into a multi-family residential development (the Project). Specifically, the Project involves the demolition of the existing uses on the Site and the construction of a 60-unit multi-family residential development. The proposed development will be served by two curb-cuts on Route 20; an entrance-only driveway on the west side of the property and a full access driveway aligned with Rich Valley Road. The full access driveway will be stop sign controlled.

This memorandum includes an evaluation of the existing traffic operations and safety; assessment of future conditions without the Project; an estimate of projected traffic volumes for the Project; and its potential impact on future traffic operations in the area. As detailed herein, while Route 20 is congested during the weekday morning and evening commute peak hours, the Project itself is expected to have minimal impact on the roadway traffic operations. The Project would replace an active garden center use that generates significant amount of traffic during the non-winter months.

In comparison to the peak hour traffic volume on Route 20 which is in the order of 1,200 to 1,400 vehicles per hour during the morning and evening commute times, the proposed residential development would generate approximately 33 to 51 vehicle trips per hour (entering + exiting traffic). However, not all estimated traffic for the Project will be new trips on the area roadway network. The Site currently supports an active garden center use which will be replaced by the residential development. Based on Institute of Transportation Engineers (ITE) guidelines, the garden center could generate as many as 30 to 85 weekday peak hour trips. i.e., the peak hour trip generation for the proposed residential use is comparable to that of a garden center during peak season.

The traffic analysis presented in this memorandum indicates that the relatively low peak hour vehicle trips estimated for the Project would not contribute to noticeable additional delays or congestion to the area roadway network. Subject to review and approval by the Massachusetts Department of Transportation (MassDOT), the Proponent plans to reconstruct the existing sidewalk along the Site frontage, on the south side of Route 20.

Site Location

Mahoney's Garden Center is located on the south side of Route 20, across from the Rich Valley Road intersection in Wayland. Figure 1 shows a site location map. Access to the Site is currently provided via three full-access unsignalized

Eden Management Inc.
Wayland, Massachusetts

Figure 1

curb-cuts along Route 20, none of which align with Rich Valley Road. The easterly curb-cut is shared with the adjacent single family home which will also be demolished as part of the redevelopment.

The Site Plans indicate that future Site access will be via two curb-cuts on Route 20; an entrance only driveway on the west side of the property and a full access driveway aligned with Rich Valley Road. The full access driveway will be stop sign controlled. Route 20 is under the jurisdiction of MassDOT and therefore, in addition to local approvals, construction of the residential development and any associated roadway changes within the State Highway Layout (such as curb cut modifications and sidewalk improvements), will also require an Access Permit from the Massachusetts Department of Transportation (MassDOT).

Study Methodology

In conformance with the MassDOT guidelines for traffic impact assessment, this evaluation has been prepared in three stages. The first stage involved an assessment of existing traffic conditions in the study area and included an inventory of roadway geometry, observations of traffic flow, and collection of daily and peak period traffic counts. In the second stage, future traffic conditions without and with the Project were estimated and analyzed. Travel demand forecasts for the Project were assessed along with future traffic demands due to expected traffic growth independent of the Project. A seven-year time horizon was selected for analysis consistent with MassDOT's Guidelines for traffic impact assessment. The traffic analysis identified existing and projected future roadway capacity deficiencies. The third stage of the Study evaluated the need for improvement measures to minimize the traffic impacts associated with the Project, if any. As noted earlier, the traffic analysis presented in this memorandum indicates that the relatively low peak hour vehicle trips estimated for the Project would minimally impact area roadway traffic operations. The detailed traffic analysis presented in this memorandum does not take into consideration any trip credit for the existing garden center use on the Site that will be replaced.

Existing Conditions

The existing transportation conditions in the study area, including roadway geometry, traffic controls, daily and peak hour traffic flow, and traffic safety data are discussed below.

Study Area

A study area was selected for analysis based on input from the Wayland Planning Department as well as based on an understanding of the area roadway network and the expected transportation characteristics of the Project. Specifically, the following locations and their approaches were analyzed as part of the study:

- Route 20 (Boston Post Road) at Rich Valley Road/Site Driveway Middle – *unsignalized*
- Route 20 (Boston Post Road) at Site Driveway East – *unsignalized*
- Route 20 (Boston Post Road) at Site Driveway West – *unsignalized*
- Route 20 (Boston Post Road) at Old Connecticut Path/ Liquor Store Driveway East – *unsignalized*
- Route 20 (Boston Post Road) at Old Connecticut Path/Gas Station Driveway East – *unsignalized*
- Old Connecticut Path at Westway Road – *unsignalized*

The existing conditions analysis consisted of an inventory of the traffic control, roadway, driveway and intersection geometry in the study area, the collection of daily and peak hour traffic volumes, and a review of recent crash history. Each of these elements is discussed in the sections below.

Roadway Geometry

Descriptions of the study area roadways and intersections are included below. Figure 2 shows lane configuration and traffic control at the study intersections.

Roadways

Route 20 (Boston Post Road)

Route 20 (Boston Post Road) is a two-way minor arterial roadway under MassDOT jurisdiction. Route 20 generally runs in an eastbound/westbound direction and acts as a commuter route linking I-95/Route 128 (Yankee Division Highway) to the east with Route 27 and Route 126 to the west. There is no on-street parking along this road. Land use along the roadway, within the study area, is a mix of residential and commercial. The posted speed limit along the roadway is 35 miles per hour (mph) in both directions. There are three non-continuous segments of sidewalk along Route 20 in the study area; on the north side of the roadway, from the Sunoco Gas Station approximately 600 feet west of Old Connecticut Path to the edge of the study area in the east, on the north side of the roadway from Rich Valley Road to the Islamic Center of Boston driveway approximately 250 feet west, and on the south side of the roadway from the Site Driveway East to the edge of the study area in the west. There are no marked bicycle accommodations on the roadway. On street parking is not allowed along the roadway within the study area.

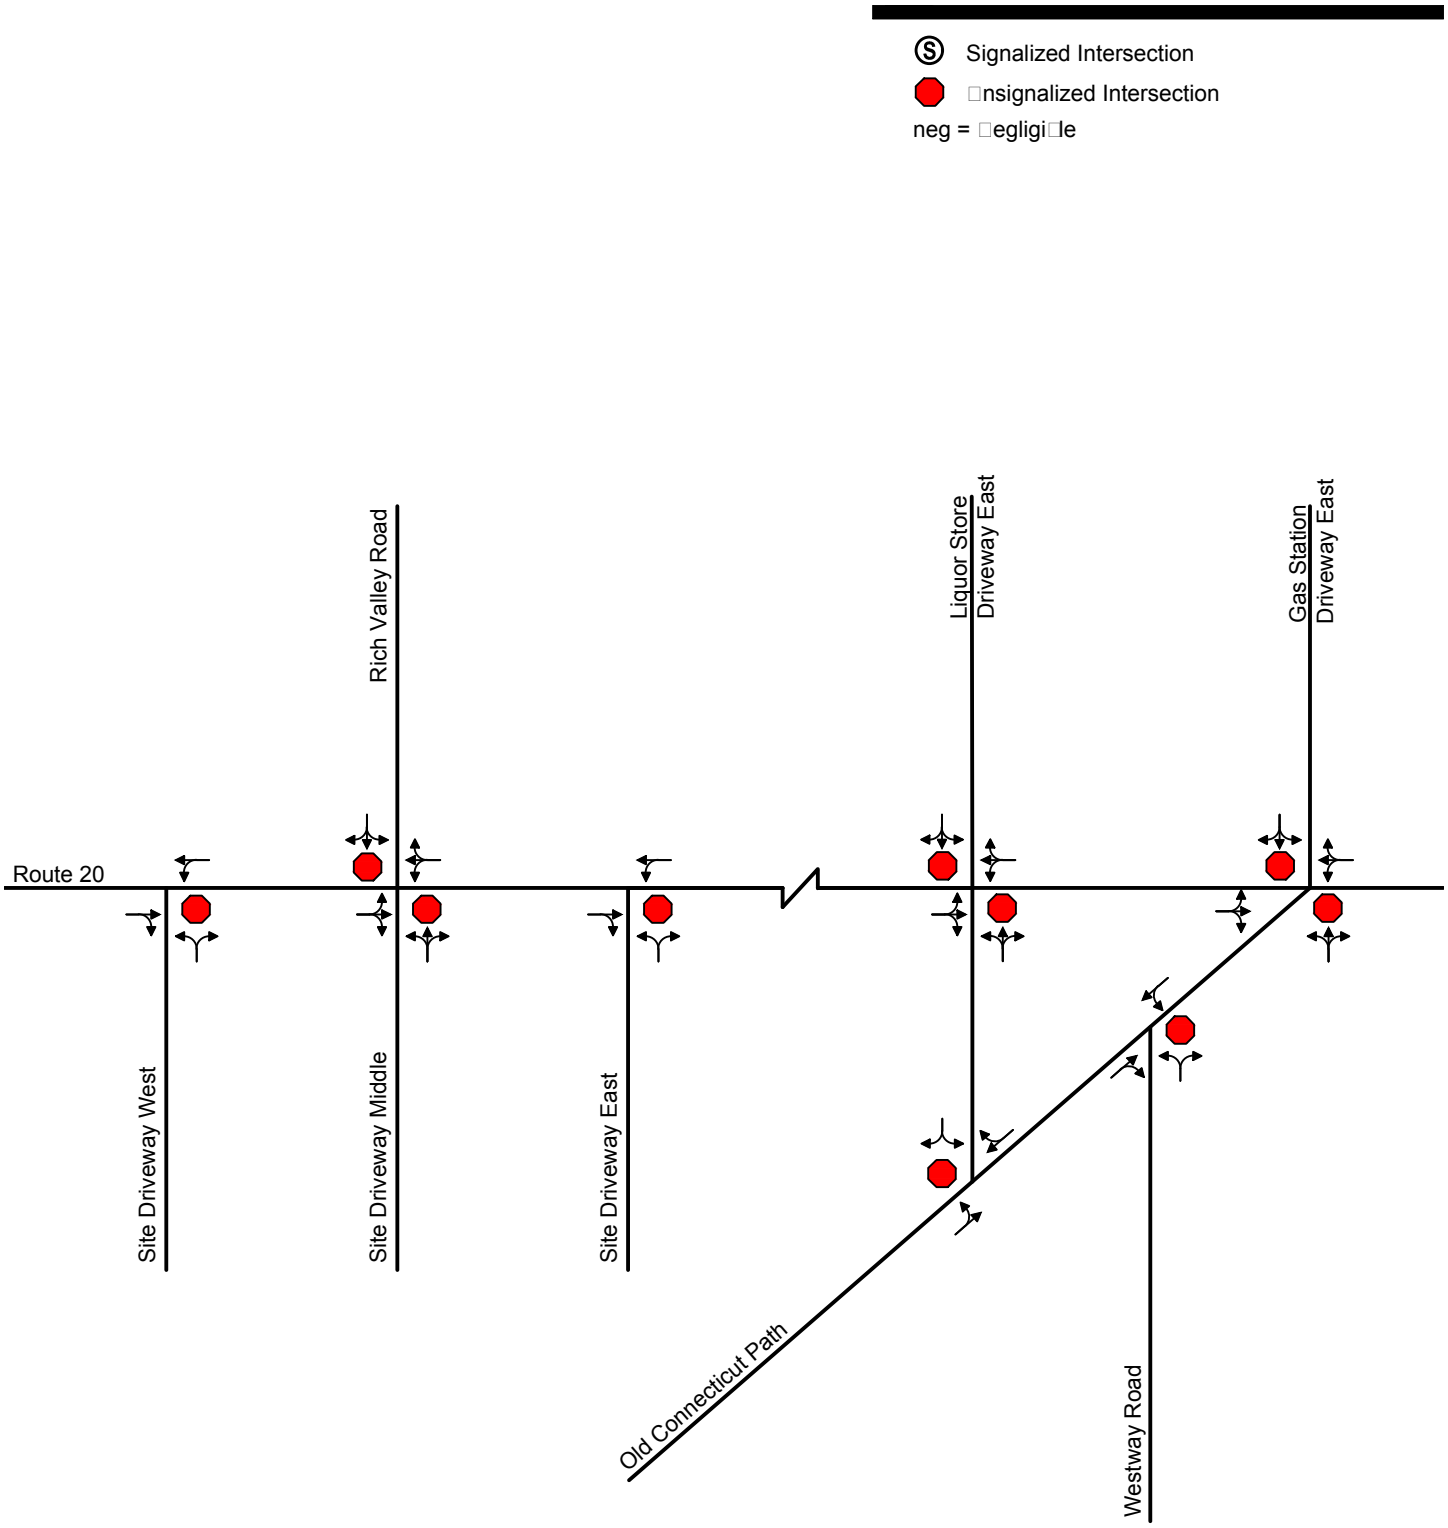
Intersections

Route 20 at Rich Valley Road/Site Driveway Middle

Rich Valley Road and Site Driveway Middle intersect Route 20 to form an offset four-legged unsignalized intersection. Rich Valley Road intersects from the north and Site Driveway Middle from the south. The Route 20 eastbound and westbound approaches each consist of one shared general purpose lane. The Rich Valley Road southbound approach consists of one shared general purpose lane and is under STOP sign control. The Site Driveway Middle northbound approach consists of one shared general purpose lane and is not signed but operates as a STOP controlled movement. Sidewalks exist on the south side of Route 20 and on the north side of Route 20 west of Rich Valley Road. There are no crosswalks at the intersection. Land use in the area is a mix of residential, institutional and commercial.

Route 20 at Site Driveway East

Site Driveway East intersects Route 20 from the south to form a three-legged unsignalized intersection. The Route 20 eastbound and westbound approaches each consist of one shared general purpose lane. The Site Driveway East northbound approach consists of one shared general purpose lane and is not signed but operates as a STOP controlled movement. There is a sidewalk on the south side of Route 20 west of the intersection. Land use in the area is a mix of residential and commercial.



Not to Scale

Intersection Lane Geometry and
Traffic Control
Eden Management Inc.
Wayland, Massachusetts

Figure 2

Route 20 at Site Driveway West

Site Driveway West intersects Route 20 from the south to form a three-legged unsignalized intersection. The Route 20 eastbound and westbound approaches each consist of one shared general purpose lane. The Site Driveway West northbound approach consists of one shared general purpose lane and is not signed but operates as a STOP controlled movement. There is no on-street parking. Sidewalks exist on both sides of Route 20 but there are no crosswalks at the intersection. Land use in the area is a mix of residential and commercial.

Route 20 at Old Connecticut Path (west)/Liquor Store Driveway East

Old Connecticut Path (west) and liquor store driveway intersect Route 20 to form a four-legged unsignalized intersection. The liquor store driveway intersects from the north and Old Connecticut Path from the south. The Route 20 eastbound and westbound approaches each consist of one shared general purpose lane. Old Connecticut Path northbound approach consists of one shared general purpose lane and is under STOP control. The liquor store driveway southbound approach consists of one shared general purpose lane and not signed but operates as a STOP controlled movement. There is a sidewalk on the north side of Route 20 and there are no existing crosswalks at the intersection. Land use in the area is primarily commercial use.

Route 20 at Old Connecticut Path (east)/Gas Station Driveway East

Old Connecticut Path (east) and gas station driveway intersect Route 20 to form a four-legged unsignalized intersection. The gas station driveway intersects from the north and Old Connecticut Path from the south. The Route 20 eastbound and westbound approaches each consist of one shared general purpose lane. The Old Connecticut Path northbound approach consists of one shared general purpose lane and is under STOP control. The gas station driveway southbound approach consists of one shared general purpose lane and is not signed but operates as a STOP controlled movement. There is a sidewalk on the north side of Route 20. Land use in the area is primarily commercial use.

Old Connecticut Path at Westway Road

Westway Road intersects Old Connecticut Path from the south to form a three-legged unsignalized intersection. This intersection is approximately 60 feet south of the intersection of Route 20 at Old Connecticut Path (east)/Gas Station Driveway East. The Old Connecticut Path eastbound and westbound approaches each consist of one shared general purpose lane. The Westway Road northbound approach consists of one shared general purpose lane and is not signed but operates as a STOP controlled movement. There are no sidewalks at the intersection. Land use in the area consists of commercial and residential uses.

Traffic Volumes

To assess the existing operational conditions at the study area intersections, automatic traffic recorder (ATR) counts were conducted from Tuesday, March 7, 2017 through Wednesday, March 8, 2017 along Route 20 in the vicinity of the Site. The average daily traffic volume data are summarized below in Table 1 and the existing count data is included in the Attachments to this memorandum.

Table 1 Existing Peak Season Traffic Volume Summary

Location	Weekday Daily Volume [a]	Weekday Morning Peak Hour Vol [b]	Weekday Morning Peak Hour K Factor [c]	Weekday Morning Peak Hour Dir. Dist. [d]	Weekday Evening Peak Hour Volume	Weekday Evening Peak Hour K Factor	Weekday Evening Peak Hour Dir. Dist.
Route 20, west of Rich Valley Road	18,800	1,240	7%	63% EB	1,405	8%	59% WB

Source: Automatic Traffic Recorder (ATR) counts conducted by VHB in March 2017
a Daily traffic expressed in vehicles per day
b Peak hour volumes expressed in vehicles per hour
c Percent of daily traffic, which occurs during the peak hour
d Directional distribution of peak period traffic
Note: Peak hours do not necessarily coincide with the peak hours of the individual intersection turning movement counts.

As shown in Table 1, Route 20 carries approximately 18,800 vehicles per day on a typical weekday, with approximately seven-percent during the weekday morning peak hour and approximately eight-percent during the weekday evening peak hour. The directionality of peak hour traffic flow on the roadway is representative of the commuter traffic flows (heavier traffic flow in the eastbound direction during the weekday morning peak hour and heavier in the westbound direction during the weekday evening peak hour).

In addition to daily traffic volumes, peak hour turning movement counts (TMCs) were conducted at the intersection of Route 20/Rich Valley Road in March 2017. Very limited vehicle activity was observed at the Site driveways as Mahoney's Garden Center was not fully operational at the time of performing the March traffic counts.

In addition to the March 2017 TMC at Rich Valley Road, additional TMCs were conducted in April 2017 at the Route 20/Old Connecticut Path intersections based on feedback from the Wayland Planning Department that the Route 20/Old Connecticut Path intersection should be included in the evaluation.

All TMCs were conducted during the weekday morning peak period from 7:00 AM to 9:00 AM and during the weekday evening peak period from 4:00 PM to 6:00 PM. Based on a review of the count data, the weekday morning and evening peak hours of vehicular activity were determined to be 8:00 AM to 9:00 AM and 4:45 PM to 5:45 PM, respectively. The traffic volume counts are provided in the Attachments to this memorandum.

Seasonal Variation

MassDOT historical traffic counts were reviewed to understand the seasonality of traffic count data collected in the month of March and April. The statewide data for seasonal variation of traffic volumes indicate that traffic counts in March are generally four-percent higher than the average month and traffic counts in April are generally eight-percent higher than the average month. To present a conservative analysis, no seasonal adjustment factors were applied to the count data to adjust them down to represent average conditions. The MassDOT seasonal factors are included in the Attachments to this memorandum.

The 2017 Existing peak hour traffic volume networks for the weekday morning and evening are shown in Figures 3 and 4, respectively.

Crash Summary

To identify potential vehicle crash trends in the study area, vehicular crash data for the study area intersections were obtained from Massachusetts Department of Transportation (MassDOT) for the most recent five-year period (2010-2014) available. A summary of the MassDOT vehicular crash history is provided in Table 2 and the detailed crash data is provided in the Attachments to this memorandum. For the crash analysis, the intersections of Route 20 at Old Connecticut Path (east)/Gas Station Driveway East and Old Connecticut Path at Westway Road were analyzed as one intersection due to the proximity of the two intersections.

The current MassDOT average crash rates for signalized and unsignalized intersections in District 3 (the MassDOT district for Wayland) are 0.90 crashes per million entering vehicles and 0.65 crashes per million entering vehicles, respectively. In other words, on average, 0.65 crashes occurred per million vehicles entering unsignalized intersections throughout District 3. The crash rate worksheets are included in the Attachments to this memorandum.

As shown in Table 2, the intersections of Route 20 at Rich Valley Road and Site Driveway Middle, Route 20 at Old Connecticut Path East and Westway Road, and Route 20 at Old Connecticut Path West experienced crashes during the five-year period of available data. The only intersection in the study area that had calculated crash rates above the MassDOT District 3 average crash rates was Route 20 at Old Connecticut Path East and Westway Road. The majority of the crashes that occurred at the study area intersections were angle and rear-end collisions, resulting in property damage or injury. One crash at the intersection of Route 20 at Rich Valley Road involved a non-motorist (bicyclist or pedestrian).

Future Conditions

To determine the impacts of the site-generated traffic volumes, future traffic conditions were evaluated. A seven-year horizon (2024) was used for the evaluation to be consistent with MassDOT's traffic impact assessment guidelines.

Traffic growth on area roadways is a function of the expected land development, environmental activity, and changes in demographics. A frequently used procedure is to identify estimated traffic generated by planned developments that would be expected to affect the project study area roadways. An alternative procedure is to estimate an annual percentage increase and apply that increase to study area traffic volumes. For this evaluation, both procedures were considered. The following summarizes the traffic forecasting process.

Regional Traffic Growth

Traffic studies conducted in the Town of Wayland and historic count data were reviewed to establish a rate at which traffic volumes can be expected to grow. A review of recent traffic studies indicated that a one-percent per year growth rate is appropriate for analysis purposes.

Planned/Approved Developments

In addition to accounting for background growth, the traffic associated with other planned/approved developments near the site was also considered. Based on discussions with the Town of Wayland Planning Department staff, it was determined that there are several planned development projects within the vicinity of the study area that would need to be considered as part of the future traffic conditions, independent of the Project. Traffic volumes generated from the planned development projects were obtained from published traffic studies for use in the analysis.

- **Wayland Town Center:** This development is a mixed-use site designed to include up to up to 100 residential units, 10,000 square feet (sf) of office space, and approximately 155,000 sf of retail space. The development has been mostly constructed in the past decade, but approximately 30% of the retail space is not yet built/unoccupied. Therefore, traffic expected to be generated by this space was estimated and included in the analysis.
- **Rivers Edge Residential Development:** The development involves the construction of approximately 188 apartment units at 489 Boston Post Road (Route 20) near the Sudbury town line.
- **Meadow Walk (Sudbury):** The project, located at 526-528 Boston Post Road (Route 20) in Sudbury, consists of a mixed-use development that will include approximately 80,000 sf of retail (including a grocery store), a 250-unit apartment development, a 60-unit active adult residential development, and a 54-bed assisted living/memory care facility. This development will replace the approximately 560,000 sf of office, research & development, and manufacturing Raytheon facility that operated on the Site until 2015.

Background Transportation Projects

In assessing future traffic conditions, proposed roadway improvements within the study area were considered. Based on a conversation with the Town of Wayland Planning Department, there are no roadway improvement projects in study area that would impact traffic conditions within the seven-year horizon.

No-Build Traffic Volumes

The 2024 No-Build traffic volume networks for the weekday morning and weekday evening peak hours, developed based on the aforementioned assumptions, are presented in Figures 5 and 6, respectively.

Future Residential Trip Generation

To estimate the trip-generating characteristics for the Project, traffic projections were derived from trip generation rates published in the Institute of Transportation Engineers (ITE) *Trip Generation* manual. The Project involves the construction of a 60-unit multi-family rental apartment development. To estimate the traffic generation for the Project, ITE Land Use Code (LUC) 220 (Apartment) was used in the analysis using number of units as the independent variable. The trip generation calculations are included in the Attachments to this memorandum.

Table 3 summarizes the Project-related trip projections.

Table 3 Future Peak Hour Trip Generation Summary

Time Period	Movement	Apartment Use [a]
Weekday Morning	Enter	7
Peak Hour	Exit	26
	Total	*33*
Weekday Evening	Enter	33
Peak Hour	Exit	18
	Total	*51*

a Trip generation estimate based on ITE LUC 220 (Apartment) for 60 units

As shown in Table 3, the project is expected to generate approximately 33 vehicle trips per hour (7 entering/26 exiting) during the weekday morning peak hour and 51 vehicle trips per hour (33 entering/18 exiting) during the weekday evening peak hour.

The Site currently supports an active 12,000+ sf garden center use. Based on ITE trip generation guidelines, the garden center would generate 30 vehicle trips per hour (15 entering/15 exiting) during the weekday morning peak hour and 84 vehicle trips per hour (42 entering/42 exiting) during the weekday evening peak hour. I.e., during the commute peak hours, the trip generation for the proposed residential development is comparable to the trip generation of the garden center during the peak season. However, to present a conservatively worst case analysis, no trip credit was applied to the calculations under the future condition and all estimated residential trips were treated as new trips to the area roadway network.

Figure 6

Trip Distribution

Since the residential traffic leaving the Site in the morning and returning home in the evening would generally have a similar trip patterns as the commuting traffic on Route 20, the distribution of the peak hour traffic associated with the Project was developed based on the existing travel patterns along Route 20 and Old Connecticut Path. The trip distribution percentages are presented in Table 4 and illustrated in Figure 7.

Table 4 Trip Distribution

Travel Route	Direction (to/from)	Trip Distribution
Route 20	East	55%
Route 20	West	40%
Old Connecticut Path	South	5%
Total		100%

Build Condition Traffic Volumes

The Site-generated traffic volumes were assigned to the roadway network according to the distribution assumptions outlined above, and added to the No-Build traffic volumes and the garden center trips removed from the network to develop the Build condition peak hour traffic volume networks. Figures 8 and 9 presents the resulting 2024 Build traffic volumes for the weekday morning and weekday evening peak hours, respectively. Traffic networks showing the Site-generated volumes are provided in the Attachments to this memorandum.

Traffic Volumes Increases

Table 5 provides a comparison of No-Build and Build condition peak hour net traffic volume changes at various locations within the study area as a result of the Project. As noted earlier, to present a conservatively worst case analysis, no trip credit was applied to the calculations under the future conditions and all estimated residential trips were treated as new trips to the area roadway network.

Table 5 Peak Period Traffic Volume Increase (Trips per Hour)

Location	Peak Hour	No-Build Condition [a]	Build Condition [b]	Change [c]
Route 20, West of the Site	AM	1,244	1,257	+13
	PM	1,779	1,799	+20
Route 20, east of Old Conn Path	AM	2,081	2,099	+18
	PM	2,551	2,579	+28
Old Conn Path, South of Route 20	AM	769	771	+2
	PM	933	936	+3

a Condition where the Project is not constructed in the future and there is no garden center activity on the Site.
b Site is redeveloped as depicted in the Site plans.
c Change in roadway traffic after the project; this analysis does not take into consideration that the garden center currently generates trips on the roadways in the area during peak seasons. It treats all residential trips as "new" trips, which is a conservatively worst case analysis.

As shown in Table 5, the Project is estimated to add relatively low traffic volumes to the area roadway network, even with the assumption that all residential trips are new to the area, and no trip reduction credit is applied to account for the garden center trips that will be eliminated in the future.

Sight Distance Analysis

A sight distance analysis, in conformance with guidelines of the American Association of State Highway and Transportation Officials (AASHTO) was performed at the proposed Site driveways on Route 20. Sight distance considerations are generally divided into two categories: Stopping Sight Distance (SSD) and Intersection Sight Distance (ISD). Stopping Sight Distance (SSD) is the distance required for a vehicle approaching an intersection from either direction to perceive, react and come to a complete stop before colliding with an object in the road, in this case the exiting vehicle from a minor street or driveway. In this respect, SSD can be considered as the minimum visibility criterion for the safe operation of an unsignalized intersection.

Intersection Sight Distance (ISD) is based on the time required for perception, reaction and completion of the desired critical exiting maneuver once the driver on a minor street or driveway approach decided to execute the maneuver. Calculation for the critical ISD includes the time to (1) turn left, and to clear the half of the intersection without conflicting with the vehicles approaching from the left; and (2) accelerate to the operating speed of the roadway without causing approaching vehicles to unduly reduce their speed. In this context, ISD can be considered as a desirable visibility criterion for the safe operation of an unsignalized intersection. Essentially, while SSD is the minimum distance needed to avoid collisions, ISD is the minimum distance needed so that mainline motorists will not have to substantially reduce their speed due to turning vehicles.

To calculate the required SSD and ISD, the 85th percentile speed measured by the ATR count on Route 20 was utilized. The 85th percentile speed along Route 20 was observed to be 37 mph eastbound and 38 mph westbound. The

posted speed limit along Route 20 is 35 mph in both directions. Table 6 summarizes the sight distance analysis and the sight distance worksheet is included in the Attachments to this memorandum.

Table 6 Sight Distance Summary

	Stopping Sight Distance (feet)			Intersection Sight Distance (feet)		
Location	Traveling	Required [a]	Measured [b]	Looking	Desirable [a]	Measured [b]
Route 20 at Proposed Site Driveways	EB	270	>500	Left	420	>500
	WB	280	>500	Right	420	>500

a. Calculated based on standards established in A Policy on the Geometric Design of Highways and Streets, AASHTO, 2013 using the 85th percentile speeds of 37 mph eastbound and 38 mph westbound on Route 20.
b. Field measurements by VHB in March 2017

As shown in Table 6, adequate SSD and ISD will be available in both directions at the proposed curb cuts on Route 20.

Traffic Operations Analysis

To assess quality of flow, intersection capacity analyses were conducted with respect to 2017 Existing, 2024 No-Build, and 2024 Build traffic volume conditions. Capacity analyses provide an indication of how well the roadway facilities serve the traffic demands placed upon them. Roadway operating conditions are classified by calculated levels-of-service.

The evaluation criteria used to analyze the signalized study area intersection in this traffic study is based on the percentile-delay method (SYNCHRO results). The evaluation criteria used to analyze the unsignalized study area intersection is based on the *2010 Highway Capacity Manual* (HCM)[1]. Level–of-service (LOS) is the term used to denote the different operating conditions that occur on a given roadway segment under various traffic volume loads. It is a qualitative measure that considers a number of factors including roadway geometry, speed, travel delay and freedom to maneuver. Level-of-service provides an index to operational qualities of a roadway segment or an intersection. Level-of-service designations range from A to F, with LOS A representing the best operating conditions and LOS F representing congested operating conditions.

Intersection Capacity Analysis

Levels-of-service analyses were conducted for the 2017 Existing, 2024 No-Build, and 2024 Build conditions for the study area intersections. Table 8 summarizes the capacity analysis results for the study area intersections. The capacity analyses worksheets are included in the Attachments to this memorandum.

[1] Highway Capacity Manual, Transportation Research Board, Washington D.C., 2010.

As shown in Table 7, traffic operations are congested at the Route 20/Old Connecticut Path intersection under current conditions and they are projected to continue in the future with or without the Project. However, from a Project impact point of view, the limited Site generate vehicular traffic, summarized in the "change" column of Table 5, is not expected to contribute to noticeable additional delays or congestion to the area roadway network.

Site Access

Under existing conditions the site is accessed via three full-access unsignalized driveways on Route 20. Under the proposed condition, the site will be served by two curb-cuts on Route 20; an entrance only driveway on the west side of the property and a full access driveway aligned with Rich Valley Road.

A signal warrant analysis was performed to assess the need for potential traffic control improvements at the future full access driveway intersection for the Site. The results of the warrant analysis are presented below.

Signal Warrant Analysis

The Federal Highway Administration (FHWA) has established criteria for evaluating the need for traffic signal control at an intersection. Several warrants, published in the Manual on Uniform Traffic Control Devices (MUTCD) [2], provide guidelines for determining the need for a signal based on such factors as traffic volume, pedestrian volume, progressive movement of traffic, vehicular delay, and others. While satisfaction of one or more of these warrants alone does not necessarily justify installation of a traffic signal, warrants in combination with capacity analysis, crash analysis, and a study of intersection safety provide valuable criteria for evaluating the need for a traffic signal.

Traffic signal warrants were evaluated for the intersection of Route 20 at Rich Valley Road/Site driveway for the 2024 Build condition. The three traffic volume based signal warrants specified by the MUTCD have been evaluated as part of this analysis; Warrant 1 (peak hour warrant), Warrant 2 (four-hour warrant) and Warrant 3 (eight-hour warrant). Route 20 hourly traffic volume was obtained from the ATR data. Site-generated hourly traffic volumes were estimated based on temporal distribution data published by ITE[3]. Table 8 presents the results of the warrant analyses completed for this review. The warrant analysis worksheets are provided in the Attachments to this memorandum.

Table 8 Signal Warrant Analysis Summary

Signal Warrant	Warrant Met?
Warrant 1A – Minimum Vehicular Volume (eight hours)	**No**
Warrant 1B – Interruption of Continuous Traffic (eight hours)	**No**
Warrant 2 – Four-Hour Vehicular Volume	**No**
Warrant 3 – Peak Hour	**No**

Note: For each signal warrant tested, "Yes" is indicated if the warrant is satisfied, "No" means the warrant is not satisfied.

The signal warrant analysis indicates that none of the traffic volume based thresholds are exceeded for the consideration of traffic signal control at the intersection of Route 20 at Rich Valley Road/Site driveway. The driveway will therefore be operated under a stop sign control.

[2] Manual on Uniform Traffic Control Devices, 2009 Edition; U.S. Department of Transportation Federal Highway Administration, Washington DC, December 2009.
[3] Hourly Variations in Trip Generation for Office and Residential Land Uses; Aaron T. Zimmerman, PTP; ITE Journal; January 2015

Subject to review and approval by the Massachusetts Department of Transportation (MassDOT), the Proponent plans to reconstruct the existing sidewalk along the Site frontage, on the south side of Route 20.

Conclusion

The detailed analysis presented in this evaluation indicates that the redevelopment of the Mahoney's garden center site for a 60-unit residential development will have minimal impact upon roadway traffic flow and operations. While Route 20 carries heavy traffic volume, especially during the commuter peak times, the estimated Site generated traffic is too low for the consideration of traffic signal control at the intersection. Additionally, while the traffic analysis treated all future traffic to/from the Site as new traffic on area roadways, the Project would eliminate a significant number of vehicular trips that are associated with a garden center use.

Stopping Sight Distance and Intersection Sight Distance Calculator [v0.97]
Based on 'A Policy on Geometric Design of Highways and Streets', AASHTO, 2004

Section I

Project Information

Project Number:	13831.00	**Analyst:**	VHB
City/Town, State:	Wayland Massachusetts		
Location:	115 Boston Post Road	**Client:**	

Street Names and Directions

Major Street name:	Boston Post Road	EB/WB
Minor Street name:	115 Boston Post Rd Dwy	NB/SB
Minor Street intersects *from* the:	south	
The minor street *predominantly* serves...	Passenger Cars	
Sight distance location intersection is...	Existing	
Total number of lanes on Major Street is...	2	

Street Notes

Grade Information [enter down slope as a negative number]

Major Street Approach Grade:	0.00%	EB
	0.00%	WB
Minor Street Approach Grade:	0.00%	SB
	0.00%	NB

Major Street Speed Information

	Posted		*Observed **
	35	EB	37
	35	WB	38

** note:* off-peak *85th percentile speeds*

Section II

ISD and SSD *Observations*

Instructions on how to observe and measure ISD and SSD are included on subsequent pages.

ISD - Intersection sight distance is the distance that is based on the time required for perception, reaction and completion of the desired critical exiting maneuver [typically, a left turn] once the driver on a minor street approach [or a site drive] decides to execute the maneuver. Calculation for the critical ISD includes the time to [1] turn left, and to clear the near half of the intersection without conflicting with the vehicles approaching from the left; and [2] upon turning left, to accelerate to the operating speed on the roadway without causing approaching vehicles on the main road to unduly reduce their speed. In this context, ISD can be considered as a *desirable* visibility criterion for the safe operation of an unsignalized intersection.

SSD - Stopping sight distance is the distance required for a vehicle approaching an intersection from either direction to perceive, react, and come to a complete stop before colliding with the exiting vehicle from a driveway. In this respect, SSD can be considered as the *minimum* visibility criterion for the safe operation of an unsignalized intersection.

			Limiting Factors:
***Observed* ISD:**	920	looking left [west]	horizontal curve
(rounded to nearest 5 feet)	655	looking right [east]	
***Observed* SSD:**	1120	traveling EB	horizontal curve
(rounded to nearest 5 feet)	1030	traveling WB	

Section III

ISD and SSD *Calculations* (rounded up to the next highest 5 feet) [sources: SSD - AASHTO, pp.110-117; ISD - AASHTO, pp. 650 - 664]

Cases are described in detail on subsequent pages. In summary...

B1: left turn from minor road, from stop control
B2: right turn from minor road, from stop control
B3: crossing maneuver from minor road, from stop control, assuming left- and right turns are not permitted *[otherwise, case B1 or B2 would supercede]*

***Desirable* Calculated...**		**Condition Met?**
... ISD, case B1:	420	**Yes**
... ISD, case B2:	355	**Yes**
... ISD, case B3:	365	**Yes**

[note: if number of lanes crossed exceeds 6, or if grades are steep, consult the manual]

***Minimum* Calculated ...**		**Condition Met?**
... ISD, case B1:	280	**Yes**
... ISD, case B2:	270	**Yes**
... ISD, case B3:	280	**Yes**

[note: minimum *ISD is equal to required SSD]*

Calculated ...			**Condition Met?**
... SSD:	270	traveling EB	**Yes**
	280	traveling WB	**Yes**

Section IV

AASHTO Guidance

Refer to AASHTO for specific guidance on SSD and ISD if presented with an unusual/atypical case.
Adequate ISD is not needed at signalized intersections, assuming traffic signal heads are visible on all approaches.
Any object that would obstruct the driver's view should be removed or lowered, if practical. Such objects include buildings, parked cars, highway structures, hedges/vegetation/trees/bushes/unmowed lawn, walls, fences, and terrain.
For ISD, an object should be considered an obstruction if it obstructs the vision of a driver whose eye height is 3.5 feet above the roadway surface and the object to be seen is 3.5 feet above the surface of the intersecting road.
Where horizontal sight restrictions occur on downgrades, particularly at the ends of long downgrades, it is desirable to provide SSD that exceeds those values indicated above (refer to page 114 of AASHTO).

EXHIBIT A – WAIVER LIST – APPROVAL DECISION

The applicant provides the following information to assist the permit granting authority in analyzing the project and assessing the likely impact on the community as defined in 760 CMR 56. The project meets the intent of each and every by-law, rule, and regulation in terms of interests sought to be protected thereunder. The applicant provides the following waiver language to allow the permit granting authority to easily adopt or modify as it deems appropriate.

The Board of Appeals authorizes the following waivers from the requirements of the Wayland Zoning Bylaw and other local by-laws, rules, and regulations listed in this Exhibit A if and only if the Comprehensive Permit for the Project containing the Conditions identified in the attached Comprehensive Permit Application is finally issued and only to the extent necessary and sufficient to construct, occupy, and maintain the project in accordance with the Comprehensive Permit, the Conditions, and Plans and Specifications listed in the Comprehensive Permit Decision, and provided that the project is in fact constructed in accordance with the Comprehensive Permit, the Conditions, and the Plans and Specifications. Once the project has been fully constructed and certificates of occupancy have been issued, these Waivers, the Comprehensive Permit and the Conditions shall not authorize any further waiver of the Wayland Zoning Bylaws or other local bylaws, rules, or regulations; any proposed further modification of the project or any unit within the project thereafter must conform to the Wayland Zoning Bylaw and other local bylaws, rules, and regulations, subject to the regulations concerning modifications of comprehensive permits found at 760 CMR 56.05(11).

EXHIBIT A-1

CHAPTER 198
ZONING BYLAWS OF THE TOWN OF WAYLAND

In supplementation of the general information contained on page 1 of Exhibit A, the applicant believes the following waivers are required for issuance of the Comprehensive Permit and therefore requests the permit granting authority issue waivers relative to the following requirements:

Section Number	Title	Requirement, Waiver Requested
Section 198-501.1;	SIGNS AND EXTERIOR LIGHTING	The zoning by-laws require a 15-foot front yard setback for any signage or exterior lighting. The proposed project includes signs and exterior lighting fixtures within 15-feet. Waiver requested from the minimum setback requirements for exterior lighting and signage.
Section 502.1; 502.2; 502.3	TEMPORARY SIGNS	The zoning by-laws prevent temporarily signs to exceed 15 square feet and prohibits more than one temporarily sign during construction. Applicant requests a waiver to allow developer to place several temporarily signs during construction.
Section 504.1	EARTH REMOVAL	The proposed Project includes earth removal more than 500 cubic yards. Waiver requested from the by-laws which restricts earth removal in excess of 500 cubic yards in the Residential zoning district.
Section 506.1.10	OFF-STREET PARKING	Applicant requests a waiver from the minimum parking spaces required by the by-laws.
Section 506.8	LANDSCAPING IN PARKING FACILITIES	Applicant requests waiver to landscape the parking areas as proposed by the project plans.
Article 6	SITE PLAN APPROVAL	The applicant requests the ZBA waive the Site Plan Approval requirement.
Section 506.7.5	STANDARD PARKING DIMENSIONAL REGULATIONS	Applicant requests relief from the required parking dimensional regulations to allow normal and compact spaces as shown on the proposed plans.
Section 804; Table of Uses (4) & (57)	SCHEDULE OF USES	The proposed Project includes multi-family structures which is not allowed as a matter of right within all zoning districts. Waiver requested from the use regulations to allow multi-family dwellings.

Section Number	Title	Requirement, Waiver Requested
Section 901	SINGLE RESIDENCE DISTRICT	The zoning by-laws prohibits business or office use. Applicant requests waiver to allow for one on-site managerial/management office.
Section 704	LOT COVERAGE	The by-laws set a maximum lot coverage of 20% in the Residential District. The proposed project may exceed 20% and therefore requests a waiver from Section 704 of the Zoning By-laws.
Section 701	HEIGHT RESTRICTIONS	The proposed Project exceeds two and one half (2-1/2) stories in height. Waiver requested from height regulation to allow a structure three (3) stories and more than 35 feet.
Article 22	INCLUSION OF AFFORDABLE HOUSING	The Zoning Board of Appeals shall act as the comprehensive permit permitting authority.

EXHIBIT A-2

CHAPTER 193
WAYLAND STORMWATER AND LAND DISTURBANCE RULES AND REGULATIONS

In supplementation of the general information contained on page 1 of Exhibit A, the applicant believes the following waivers are required for issuance of the Comprehensive Permit and therefore requests the permit granting authority issue waivers relative to the following requirements:

Section Number	Title	Requirement, Waiver Requested
Chapter 193	STORMWATER AND LAND DISTURBANCE	Applicant seeks a waiver from this Chapter as the Zoning Board of Appeals is provided with the authority to issue all local approvals. The Project does meet the intent of the DEP Stormwater Handbook.
Section 1	PURPOSE AND OBJECTIVE	The purpose of the Wayland Stormwater and Land Disturbance Regulations is to "expand upon the requirements of state and federal statutes and regulations relating to stormwater and illicit discharges[.]" Applicant requests a waiver from these requirements and states further that the Project will Comply with the State and Federal regulations.
Section 4	APPLICABILITY	The local regulations require issuance of a Stormwater Management and Land Disturbance Permit (SMLDP). Applicant requests a waiver from this requirement.
Section 5	WAIVER	The Commission is allowed to waive strict compliance with any requirements of Chapter 193. Applicant seeks a waiver from this section as the Zoning Board of Appeals is provided with the authority to issue all local approvals.
Section 7	ENFORCEMENT	Applicant seeks a waiver from this section as the Zoning Board of Appeals is provided with the authority to issue all local approvals.

EXHIBIT A-3

CHAPTER 194
WAYLAND WETLAND AND WATER RESOURCE BY-LAWS

In supplementation of the general information contained on page 1 of Exhibit A, the applicant believes the following waivers are required for issuance of the Comprehensive Permit and therefore requests the permit granting authority issue waivers relative to the following requirements:

Section Number	Title	Requirement, Waiver Requested
Chapter 194	WETLAND AND WATER RESOURCE	Applicant seeks a waiver from this section as the Zoning Board of Appeals is provided with the authority to issue all local approvals. Applicant will Comply with the Massachusetts Wetlands Protection Act, G.L. c. 131, § 40 and 310 CMR 10.00 et. seq.
Section 1	PURPOSE	The purpose of the Wayland Wetlands and Water Resources Protection Regulations is to provide a greater degree of protection of wetlands, buffer zones, and related water resources, than the protection of these resources areas provided under M.G.L. c. 131, § 40. Applicant requests a waiver from these requirements and states further that the Project will Comply with the Massachusetts Wetlands Protection Act, G.L. c. 131, § 40 and 310 CMR 10.00 et. seq.
Section 3(A)	PROCEDURE	Per the Wayland regulations, a written application and a filing fee for Request for Determination or Notice of Intent is required in conjunction with filings under G.L. c. 131, § 40. Applicant requests a waiver from this requirement and will Comply with the Massachusetts Wetlands Protection Act, G.L. c. 131, § 40 and 310 CMR 10.00 et. seq.
Section 3(B)	PROCEDURE	The regulations require a review by other Town boards and officials; issuance of "wetlands and water resources permit" in conjunction with order of conditions pursuant to G.L. c. 131, § 40. Applicant requests a waiver from this requirement and will Comply with the Massachusetts Wetlands Protection Act, G.L. c. 131, § 40 and 310 CMR 10.00 et. seq.

Section 4	PUBLIC HEARING	Applicant requests waiver from public hearing to address local wetlands by-laws. Applicant with have a public hearing on State WPA.
Section 8	BURDEN OF PROOF	The regulations place the burden on the applicant of proving by a preponderance of the credible evidence that the work proposed in the notice of intent will not cause harm to the functions and values sought to be protected by this chapter. The Applicant requests a waiver from this burden and further states that it will Comply with the Massachusetts Wetlands Protection Act, G.L. c. 131, § 40 and 310 CMR 10.00 et. seq.
Section 9	SECURITY	Section 9 allows the Commission to require a security in addition to any security required by any other Town or state board, commission or agency. Applicant will Comply with the Massachusetts Wetlands Protection Act, G.L. c. 131, § 40 and 310 CMR 10.00 et. seq.

Chapter 194 General Regulations dated June 12, 2014:

Section C (4)	ENFORCEMENT ORDERS	The regulations provide the Conservation Commission with the authority to issue an Enforcement Order for a violation under Chapter 194 of the Wayland bylaws. The Applicant requests a waiver from this burden and further states that it will Comply with the Massachusetts Wetlands Protection Act, G.L. c. 131, § 40.
Notification of Watercourse Alternation	RIVERFRONT AREA	Applicant proposes work that alternates a riverfront. The Applicant requests a waiver from this burden and further states that it will Comply with the Massachusetts Wetlands Protection Act, G.L. c. 131, § 40 and 310 CMR 10.00 et. seq.
Notification of Watercourse Alternation	STREAMS	The Applicant requests a waiver from this burden and further states that it will Comply with the Massachusetts Wetlands Protection Act, G.L. c. 131, § 40 and 310 CMR 10.00 et. seq.

EXHIBIT A-4

WAYLAND BOARD OF HEALTH REGULATIONS

In supplementation of the general information contained on page 1 of Exhibit A, the applicant believes the following waivers are required for issuance of the Comprehensive Permit and therefore requests the permit granting authority issue waivers relative to the following requirements:

Section Number	Title	Requirement, Waiver Requested
Board of Health Regulations	BOARD OF HEALTH REGULATIONS	Applicant seeks a waiver from this section as the Zoning Board of Appeals is provided with the authority to issue all local approvals.
Floor Drain Regulation Wayland Board of Health	FLOOR DRAIN REGULATION WAYLAND BOARD OF HEALTH	As part of the Project the snowmelt and other rain will need to be collected in a floor drain and discharged to an industrial holding tank. The rain will not go into a septic system. The Applicant requests a waiver from this local regulation.
Regulations for On-Site Subsurface Disposal Systems Section 3	GROUND WATER TESTING SEASON	Applicant requests waiver from the limitations of the ground water testing season as required by Section 3.
Section 4	PERIODIC FLOODING	Applicant request a waiver from the Board of Health's requirements of periodic flooding. Applicant will meet state regulations.
Section II (C)(1)	LEACHING FACILITIES	The Board of Health Regulations sets a maximum volume of sewage flow to 165 gallons a day per bedroom for new construction of multiple dwelling units. The Applicant requests a waiver from this local regulation. Applicant will comply with the requirements of 310 CMR 15.203.

Section II (C)(2)	LEACHING FACILITIES	The Board of Health allows leach fields, leaching trenches, leaching pits and leaching galleys to be designed to Title 5 standards with approval of the Director of the Board of Health. Applicant requests a waiver from the requirement to obtain approval from the Director as the Zoning Board of Appeals is provided with the authority to issue all local approvals.
Section II (D)	DISTANCES	Section II(D) regulates the location of disposal facilities. The Applicant requests a waiver from the local regulations to build the Project as proposed by the Plans.
Section II (E)	FLOOD PLAINS AND LAND AND LAND SUBJECT TO FLOODING	Section II(E) regulates the location of construction, basements and grading by the Board of Health. The Applicant requests a waiver from this local regulation to build the Project as proposed by the Plans.
Section II (G) (2)	PUMP DESIGNS	Board of Health Regulations require no more than 1 inch of effluent on each dose cover. Applicant requests a waiver to have effluent greater than 1 inch.
Section II (G) (5)	PUMP DESIGNS	Board of Health regulations require that the distribution boxes shall be “back vented” to the pump chamber with a minimum 2 inch PVC schedule 40 pipe. Applicant requests waiver from this requirement.
Section II (L)	HYDROGEOLOGICAL EVALUATION	The Board of Health regulations require a hydrogeological evaluation at the expense of the applicant. Per the regulations, the Board of Health determines whether the ground and surface water is not compromised. The Applicant will perform a Title V mounding analysis as required.
